THE EUROPEAN COMMUNITY, THE EUROPEAN ATOMIC ENERGY COMMUNITY,

hereinafter referred to as the "Community",

of the one part, and

THE REPUBLIC OF ALBANIA, hereinafter referred to as "Albania",

of the other part,

CONSIDERING the strong links between the Parties and the values that they share and their desire to strengthen those links and establish a close and lasting relationship based on reciprocity and mutual interest, which should allow Albania to further strengthen and extend the relations with the Community and its Member States, as previously established with the Community through the Agreement on Trade and Commercial and Economic Cooperation of 1992;

CONSIDERING the importance of this Agreement in the framework of the Stabilisation and Association Process with the countries of south-eastern Europe, in the establishment and consolidation of a stable European order based on cooperation, of which the European Union is a mainstay, as well as in the framework of the Stability Pact;

CONSIDERING the commitment of the Parties to contribute by all means to the political, economic and institutional stabilisation in Albania as well as in the region, through the development of civil society and democratisation, institution building and public administration reform, regional trade integration and enhanced economic cooperation, as well as through cooperation in a wide range of areas, particularly in justice and home affairs, and the strengthening of national and regional security;

CONSIDERING the commitment of the Parties to the full implementation of all principles and provisions of the UN Charter, of the OSCE, notably those of the Helsinki Final Act, the concluding documents of the Madrid and Vienna Conferences, the Charter of Paris for a New Europe, and of the Stability Pact for south-eastern Europe, so as to contribute to regional stability and cooperation among the countries of the region;

BEARING IN MIND the commitment by Albania to approximate its legislation in the relevant sectors to that of the Community, and to effectively implement it;

TAKING ACCOUNT of the Community's willingness to provide decisive support for the implementation of reform and to use all available instruments of cooperation and technical, financial and economic assistance on a comprehensive indicative multi-annual basis to this endeavour;

CONFIRMING that the provisions of this Agreement that fall within the scope of the Third Part, Title IV of the Treaty establishing the European Community bind the United Kingdom and Ireland as separate Contracting Parties, and not as a part of the European Community, until the United Kingdom or Ireland (as the case may be) notifies Albania that it has become bound as part of the European Community in accordance with the Protocol on the position of the United Kingdom and Ireland annexed to the Treaty on European Union and the Treaty establishing the European Community. The same applies to Denmark, in accordance with the Protocol on the position of Denmark annexed to those Treaties;

RECALLING the European Union's readiness to integrate to the fullest possible extent Albania into the political and economic mainstream of Europe and its status as a potential candidate for European Union membership on the basis of the Treaty on European Union and fulfilment of the criteria defined by the European Council in June 1993, subject to the successful implementation of this Agreement, notably regarding regional cooperation,

HAVE AGREED AS FOLLOWS:

ARTICLE 1

1. An Association is hereby established between the Community and its Member States, of the one part; and Albania, of the other part.
2. The aims of this Association are:
 - to support the efforts of Albania to strengthen democracy and the rule of law;
 - to contribute to political, economic and institutional stability in Albania, as well as to the stabilisation of the region;
 - to provide an appropriate framework for political dialogue, allowing the development of close political relations between the Parties;
 - to support the efforts of Albania to develop its economic and international cooperation, also through the approximation of its legislation to that of the Community;
 - to support the efforts of Albania to complete the transition into a functioning market economy, to promote harmonious economic relations and develop gradually a free trade area between the Community and Albania;
 - to foster regional cooperation in all the fields covered by this Agreement.

TITLE I

GENERAL PRINCIPLES

ARTICLE 2

Respect for the democratic principles and human rights as proclaimed in the Universal Declaration of Human Rights and as defined in the European Convention on Human Rights, in the Helsinki Final Act and the Charter of Paris for a New Europe, respect for international law principles and the rule of law as well as the principles of market economy as reflected in the Document of the CSCE Bonn Conference on Economic Cooperation, shall form the basis of the domestic and external policies of the Parties and constitute essential elements of this Agreement.

ARTICLE 3

International and regional peace and stability and the development of good neighbourly relations are central to the Stabilisation and Association Process referred to in the conclusions of the Council of the European Union of 21 June 1999. The conclusion and the implementation of this Agreement come within the framework of the conclusions of the Council of the European Union of 29 April 1997, and are based on the individual merits of Albania.

ARTICLE 4

Albania commits itself to continue and foster cooperation and good neighbourly relations with the other countries of the region including an appropriate level of mutual concessions concerning the movement of persons, goods, capital and services as well as the development of projects of common interest, notably those related to combating organised crime, corruption, money laundering, illegal migration and trafficking, including in particular in human beings and illicit drugs. This commitment constitutes a key factor in the development of the relations and cooperation between the Parties and thus contributes to regional stability.

ARTICLE 5

The Parties reaffirm the importance that they attach to the fight against terrorism and the implementation of international obligations in this area.

ARTICLE 6

The Association shall be implemented progressively and shall be fully realised over a transitional period of a maximum of ten years, divided into two successive stages.

The two stages shall not apply to Title IV, for which a specific schedule is laid down under that Title.

The purpose of this division into successive stages is to make a thorough mid-term review of the implementation of this Agreement. In the field of legal approximation and law enforcement, the aim shall be for Albania to concentrate in the first stage on the fundamental elements, with specific benchmarks, of the *acquis* as described under Title VI.

The Stabilisation and Association Council established under Article 116 shall regularly review the application of this Agreement and the accomplishment by Albania of legal, administrative, institutional and economic reforms in the light of the Preamble and in accordance with the general principles laid down in this Agreement.

The first stage shall start upon the date of entry into force of this Agreement. During the fifth year after the date of entry into force of this Agreement, the Stabilisation and Association Council shall evaluate the progress made by Albania, and shall decide whether this progress has been sufficient for the passage into the second stage in order to achieve full Association. It shall also decide on any specific provisions deemed necessary to govern the second stage.

ARTICLE 7

This Agreement shall be fully compatible with and implemented in a manner consistent with the relevant WTO provisions, in particular Article XXIV of the GATT 1994 and Article V of the GATS.

TITLE II

POLITICAL DIALOGUE

ARTICLE 8

1. Political dialogue between the Parties shall be further developed within the context of this Agreement. It shall accompany and consolidate the rapprochement between the European Union and Albania and contribute to the establishment of close links of solidarity and new forms of cooperation between the Parties.
2. The political dialogue is intended to promote in particular:
 - Albania's full integration into the community of democratic nations and gradual rapprochement with the European Union;
 - an increasing convergence of positions of the Parties on international issues, also through the exchange of information as appropriate, and, in particular, on those issues likely to have substantial effects on the Parties;
 - regional cooperation and the development of good neighbourly relations;
 - common views on security and stability in Europe, including cooperation in the areas covered by the Common Foreign and Security Policy of the European Union.

3. The Parties consider that the proliferation of weapons of mass destruction and their means of delivery, both to state and non-state actors, represents one of the most serious threats to international stability and security. The Parties therefore agree to cooperate and to contribute to countering the proliferation of weapons of mass destruction and their means of delivery through full compliance with and national implementation of their existing obligations under international disarmament and non-proliferation Treaties and Agreements and other relevant international obligations. The Parties agree that this provision constitutes an essential element of this Agreement and shall be part of the political dialogue that shall accompany and consolidate these elements.

The Parties furthermore agree to cooperate and to contribute to countering the proliferation of weapons of mass destruction and their means of delivery by:

- taking steps to sign, ratify, or accede to, as appropriate, and fully implement all other relevant international instruments;
- the establishment of an effective system of national export controls, controlling the export as well as the transit of WMD-related goods, including a WMD end-use control on dual use technologies and containing effective sanctions for breaches of export controls.

Political dialogue on this matter may take place on a regional basis.

ARTICLE 9

1. Political dialogue shall take place within the Stabilisation and Association Council, which shall have the general responsibility for any matter which the Parties might wish to put to it.

2. At the request of the Parties, political dialogue may also take place in the following formats:
- meetings, where necessary, of senior officials representing Albania, on the one hand, and the Presidency of the Council of the European Union and the Commission, on the other;
 - taking full advantage of all diplomatic channels between the Parties, including appropriate contacts in third countries and within the United Nations, the OSCE, the Council of Europe and other international fora;
 - any other means which would make a useful contribution to consolidating, developing and stepping up this dialogue.

ARTICLE 10

Political dialogue at parliamentary level shall take place within the framework of the Stabilisation and Association Parliamentary Committee established under Article 122.

ARTICLE 11

Political dialogue may take place within a multilateral framework, and as a regional dialogue including other countries of the region.

TITLE III

REGIONAL COOPERATION

ARTICLE 12

In conformity with its commitment to international and regional peace and stability, and to the development of good neighbourly relations, Albania shall actively promote regional cooperation. The Community assistance programmes may support projects having a regional or cross-border dimension through its technical assistance programmes.

Whenever Albania foresees to reinforce its cooperation with one of the countries mentioned in Articles 13, 14 and 15, it shall inform and consult the Community and its Member States according to the provisions laid down in Title X.

Albania shall review existing bilateral Agreements with all relevant countries, or will conclude new ones, in order to ensure that they are compatible with the principles set out in the Memorandum of Understanding on Trade Facilitation and Liberalisation signed in Brussels on 27 June 2001.

ARTICLE 13

Cooperation with other countries having signed a Stabilisation and Association Agreement

After the signature of this Agreement, Albania shall start negotiations with the countries which have already signed a Stabilisation and Association Agreement with a view to concluding bilateral Conventions on regional cooperation, the aim of which shall be to enhance the scope of cooperation between the countries concerned.

The main elements of these conventions shall be:

- political dialogue;
- the establishment of a free trade area between the Parties, consistent with the relevant WTO provisions;
- mutual concessions concerning the movement of workers, establishment, supply of services, current payments and movement of capital as well as other policies related to movement of persons at an equivalent level to that of this Agreement;
- provisions on cooperation in other fields whether or not covered by this Agreement, and notably the field of Justice and Home Affairs.

These Conventions shall contain provisions for the creation of the necessary institutional mechanisms, as appropriate.

These Conventions shall be concluded within two years after the date of entry into force of this Agreement. Readiness by Albania to conclude such Conventions will be a condition for the further development of the relations between Albania and the European Union.

Albania shall initiate similar negotiations with the remaining countries of the region once these countries have signed a Stabilisation and Association Agreement.

ARTICLE 14

Cooperation with other countries concerned by the Stabilisation and Association Process

Albania shall pursue regional cooperation with the other countries concerned by the Stabilisation and Association Process in some or all the fields of cooperation covered by this Agreement, and notably those of common interest. Such cooperation shall be compatible with the principles and objectives of this Agreement.

ARTICLE 15

Cooperation with countries candidate for accession to the European Union

1. Albania may foster its cooperation and conclude a Convention on regional cooperation with any country candidate for accession to the European Union in any of the fields of cooperation covered by this Agreement. Such Convention should aim gradually to align bilateral relations between Albania and that country to the relevant part of the relations between the Community and its Member States and that country.

2. Albania shall start negotiations with Turkey with a view to concluding, on a mutually advantageous basis, an Agreement establishing a free trade area between the two Parties in accordance with Article XXIV of the GATT as well as liberalising the establishment and supply of services between them at a level equivalent to this Agreement in accordance with Article V of the GATS.

These negotiations shall be opened as soon as possible, with a view to concluding such an Agreement before the end of the transitional period referred to in Article 16(1).

TITLE IV

FREE MOVEMENT OF GOODS

ARTICLE 16

1. The Community and Albania shall gradually establish a free trade area over a period lasting a maximum of ten years starting from the date of entry into force of this Agreement in accordance with the provisions of this Agreement and in conformity with those of the GATT 1994 and the WTO. In so doing they shall take into account the specific requirements laid down hereinafter.
2. The Combined Nomenclature of goods shall be applied to the classification of goods in trade between the two Parties.
3. For each product the basic duty to which the successive reductions set out in this Agreement are to be applied shall be the duty actually applied *erga omnes* on the day preceding the signature of this Agreement.
4. The reduced duties to be applied by Albania calculated as set out in this Agreement shall be rounded to whole numbers using common arithmetical principles. Therefore, all figures which have less than 50 (included) after the decimal point shall be rounded down to the nearest whole number and all figures which have more than 50 after the decimal point shall be rounded up to the nearest whole number.

5. If, after the signature of this Agreement, any tariff reduction is applied on an *erga omnes* basis, in particular reductions resulting from the tariff negotiations in the WTO, such reduced duties shall replace the basic duty referred to in paragraph 3 as from the date when such reductions are applied.
6. The Community and Albania shall communicate to each other their respective basic duties.

CHAPTER I

1. The provisions of this Chapter shall apply to products originating in the Community or in Albania listed in Chapters 25 to 97 of the Combined Nomenclature, with the exception of the products listed in Annex I. § I, (ii) of the Agreement on agriculture (GATT 1994).

The Stabilisation and Association Council shall analyse the situation in this respect and make the relevant recommendations.

2. On the date of entry into force of this Agreement, Albania shall abolish all quantitative restrictions and measures having equivalent effect on imports of agricultural and fishery products originating in the Community.

ARTICLE 27

2. From the date of entry into force of this Agreement Albania shall not apply any customs duties or charges having an equivalent effect to a customs duty on fish and fisheries products originating in the Community.

ARTICLE 29

Taking account of the volume of trade in agricultural and fishery products between the Parties, of their particular sensitivities, of the rules of the Community common policies and of the Albanian policies for agriculture and fisheries, of the role of agriculture and fisheries in Albania's economy and of the consequences of the multilateral trade negotiations under the WTO, the Community and Albania shall examine in the Stabilisation and Association Council, no later than six years after the date of entry into force of this Agreement, product by product and on an orderly and appropriate reciprocal basis, the opportunities for granting each other further concessions with a view to implementing greater liberalisation of the trade in agricultural and fishery products.

ARTICLE 30

ARTICLE 31

Notwithstanding other provisions of this Agreement, and in particular Articles 38 and 43, given the particular sensitivity of the agricultural and fisheries markets, if imports of products originating in one of the two Parties, which are the subject of concessions granted pursuant to Articles 25, 27 and 28, cause serious disturbance to the markets or to their domestic regulatory mechanisms in the other Party, both Parties shall enter into consultations immediately to find an appropriate solution. Pending such solution, the Party concerned may take the appropriate measures it deems necessary.

CHAPTER III

COMMON PROVISIONS

ARTICLE 32

The provisions of this Chapter shall apply to trade in all products between the Parties except where otherwise provided herein or in Protocols 1, 2 and 3.

ARTICLE 33

1. From the date of entry into force of this Agreement no new customs duties on imports or exports or charges having equivalent effect shall be introduced, nor shall those already applied be increased, in trade between the Community and Albania.
2. From the date of entry into force of this Agreement no new quantitative restriction on imports or exports or measure having equivalent effect shall be introduced, nor shall those existing be made more restrictive, in trade between the Community and Albania.
3. Without prejudice to the concessions granted under Article 26, the provisions of paragraphs 1 and 2 of this Article shall not restrict in any way the pursuit of the respective agricultural policies of Albania and the Community or the taking of any measures under those policies insofar as the import regime in Annexes II and III is not affected.

ARTICLE 34

Prohibition of fiscal discrimination

1. The Parties shall refrain from, and abolish where existing, any measure or practice of an internal fiscal nature establishing, whether directly or indirectly, discrimination between the products of one Party and like products originating in the territory of the other Party.

2. Products exported to the territory of one of the Parties may not benefit from repayment of internal indirect taxation in excess of the amount of indirect taxation imposed on them.

ARTICLE 35

The provisions concerning the abolition of customs duties on imports shall also apply to customs duties of a fiscal nature.

ARTICLE 36

Customs unions, free trade areas, cross-border arrangements

1. This Agreement shall not preclude the maintenance or establishment of customs unions, free trade areas or arrangements for frontier trade except insofar as they alter the trade arrangements provided for in this Agreement.
2. During the transitional periods specified in Article 19, this Agreement shall not affect the implementation of the specific preferential arrangements governing the movement of goods either laid down in frontier Agreements previously concluded between one or more Member States and Albania or resulting from the bilateral Agreements specified in Title III concluded by Albania in order to promote regional trade.

3. Consultations between the Parties shall take place within the Stabilisation and Association Council concerning the Agreements described in paragraphs 1 and 2 and, where requested, on other major issues related to their respective trade policies towards third countries. In particular in the event of a third country acceding to the Community, such consultations shall take place so as to ensure that account is taken of the mutual interests of the Community and Albania stated in this Agreement.

ARTICLE 37

Dumping and subsidy

1. None of the provisions in this Agreement shall prevent either Party from taking trade defence action in accordance with paragraph 2 of this Article and Article 38.
2. If one of the Parties finds that dumping and/or countervailable subsidisation is taking place in trade with the other Party, the first Party may take appropriate measures against this practice in accordance with the WTO Agreement on Implementation of Article VI of the General Agreement on Tariffs and Trade 1994 and the WTO Agreement on Subsidies and Countervailing Measures and its own related internal legislation.

ARTICLE 38

General safeguard clause

1. The provisions of Article XIX GATT 1994 and the WTO Agreement on Safeguard are applicable between the Parties.
2. Where any product of one Party is being imported into the territory of the other Party in such increased quantities and under such conditions as to cause or threaten to cause:
 - serious injury to the domestic industry of like or directly competitive products in the territory of the importing Party; or
 - serious disturbances in any sector of the economy or difficulties which could bring about serious deterioration in the economic situation of a region of the importing Party,

the importing Party may take appropriate measures under the conditions and in accordance with the procedures laid down in this Article.

3. Bilateral safeguard measures directed at imports from the other Party shall not exceed what is necessary to remedy the difficulties which have arisen, and should normally consist of the suspension of the further reduction of any applicable rate of duty provided for under this Agreement for the product concerned or the increase of the rate of duty for that product up to a maximum limit corresponding to the Most-Favoured-Nation (MFN) rate applicable to the same product. Such measures shall contain clear elements progressively leading to their elimination at the end of the set period, at the latest, and shall not be taken for a period exceeding one year. In very exceptional circumstances, measures may be taken up to a total maximum period of three years. No bilateral safeguard measure shall be applied to the import of a product that has previously been subject to such a measure for a period of, at least, three years since the expiry of the measure.

4. In the cases specified in this Article, before taking the measures provided for therein or, in the cases to which paragraph 5(b) applies, as soon as possible, the Community or Albania, as the case may be, shall supply the Stabilisation and Association Council with all relevant information, with a view to seeking a solution acceptable to both Parties.

5. For the implementation of the above paragraphs the following provisions shall apply:

- (a) The difficulties arising from the situation referred to in this Article shall be referred for examination to the Stabilisation and Association Council, which may take any decisions needed to put an end to such difficulties.

If the Stabilisation and Association Council or the exporting Party has not taken a decision putting an end to the difficulties or no other satisfactory solution has been reached within 30 days of the matter being referred to the Stabilisation and Association Council, the importing Party may adopt the appropriate measures to remedy the problem in accordance with this Article. In the selection of safeguard measures, priority must be given to those which least disturb the functioning of the arrangements established in this Agreement. Safeguard measures applied in accordance with Article XIX GATT and the WTO Agreement on Safeguards shall preserve the level/margin of preference granted under this Agreement.

- (b) Where exceptional and critical circumstances requiring immediate action make prior information or examination, as the case may be, impossible, the Party concerned may, in the situations specified in this Article, apply forthwith provisional measures necessary to deal with the situation and shall inform the other Party immediately thereof.

The safeguard measures shall be notified immediately to the Stabilisation and Association Council and shall be the subject of periodic consultations within that body, particularly with a view to establishing a timetable for their abolition as soon as circumstances permit.

6. In the event of the Community or Albania subjecting imports of products liable to give rise to the difficulties referred to in this Article to an administrative procedure having as its purpose the rapid provision of information on the trend of trade flows, it shall inform the other Party.

ARTICLE 39

Shortage clause

1. Where compliance with the provisions of this Title leads to:
 - (a) a critical shortage, or threat thereof, of foodstuffs or other products essential to the exporting Party; or
 - (b) re-export to a third country of a product against which the exporting Party maintains quantitative export restrictions, export duties or measures or charges having equivalent effect, and where the situations referred to above give rise, or are likely to give rise to major difficulties for the exporting Party

that Party may take appropriate measures under the conditions and in accordance with the procedures laid down in this Article.

2. In the selection of measures, priority must be given to those which least disturb the functioning of the arrangements in this Agreement. Such measures shall not be applied in a manner which would constitute a means of arbitrary or unjustifiable discrimination where the same conditions prevail, or a disguised restriction on trade and shall be eliminated when the conditions no longer justify their maintenance.

3. Before taking the measures provided for in paragraph 1 or, as soon as possible in cases to which paragraph 4 applies the Community or Albania, as the case may be, shall supply the Stabilisation and Association Council with all relevant information, with a view to seeking a solution acceptable to the Parties. The Parties within the Stabilisation and Association Council may agree on any means needed to put an end to the difficulties. If no agreement is reached within thirty days of the matter being referred to the Stabilisation and Association Council, the exporting Party may apply measures under this Article on the exportation of the product concerned.

4. Where exceptional and critical circumstances requiring immediate action make prior information or examination, as the case may be, impossible, the Community or Albania, whichever is concerned, may apply forthwith the precautionary measures necessary to deal with the situation and shall inform the other Party immediately thereof.

5. Any measures applied pursuant to this Article shall be immediately notified to the Stabilisation and Association Council and shall be the subject of periodic consultations within that body, particularly with a view to establishing a timetable for their elimination as soon as circumstances permit.

ARTICLE 40

State monopolies

Albania shall progressively adjust any State monopolies of a commercial character so as to ensure that, by the end of the fourth year following the date of entry into force of this Agreement, no discrimination regarding the conditions under which goods are procured and marketed exists between nationals of the Member States and Albania. The Stabilisation and Association Council shall be informed about the measures adopted to attain this objective.

ARTICLE 41

Except if otherwise stipulated in this Agreement, Protocol 4 lays down the rules of origin for the application of the provisions of this Agreement.

ARTICLE 42

Restrictions authorised

This Agreement shall not preclude prohibitions or restrictions on imports, exports or goods in transit justified on grounds of public morality, public policy or public security; the protection of health and life of humans, animals or plants; the protection of national treasures of artistic, historic or archaeological value or the protection of intellectual, industrial and commercial property, or rules relating to gold and silver. Such prohibitions or restrictions shall not, however, constitute a means of arbitrary discrimination or a disguised restriction on trade between the Parties.

ARTICLE 43

1. The Parties agree that administrative cooperation is essential for the implementation and the control of the preferential treatment granted under this Title and underline their commitment to combat irregularities and fraud in customs and related matters.
2. Where a Party has made a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud under this Title, the Party concerned may temporarily suspend the relevant preferential treatment of the product(s) concerned in accordance with this Article.

3. For the purpose of this Article a failure to provide administrative cooperation shall mean, inter alia:

- (a) a repeated failure to respect the obligations to verify the originating status of the product(s) concerned;
- (b) a repeated refusal or undue delay in carrying out and/or communicating the results of subsequent verification of the proof of origin;
- (c) a repeated refusal or undue delay in obtaining authorisation to conduct administrative cooperation missions to verify the authenticity of documents or accuracy of information relevant to the granting of the preferential treatment in question.

For the purpose of this Article a finding of irregularities or fraud may be made, inter alia, where there is a rapid increase, without satisfactory explanation, in imports of goods exceeding the usual level of production and export capacity of the other Party, that is linked to objective information concerning irregularities or fraud.

4. The application of a temporary suspension shall be subject to the following conditions:
- (a) The Party which has made a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud shall without undue delay notify the Stabilisation and Association Committee of its finding together with the objective information and enter into consultations within the Stabilisation and Association Committee, on the basis of all relevant information and objective findings, with a view to reaching a solution acceptable to both Parties.
 - (b) Where the Parties have entered into consultations within the Stabilisation and Association Committee and have failed to agree on an acceptable solution within three months following the notification, the Party concerned may temporarily suspend the relevant preferential treatment of the product(s) concerned. A temporary suspension shall be notified to the Stabilisation and Association Committee without undue delay.
 - (c) Temporary suspensions under this Article shall be limited to the extent necessary to protect the financial interests of the Party concerned. They shall not exceed a period of six months, which may be renewed. Temporary suspensions shall be notified immediately after their adoption to the Stabilisation and Association Committee. They shall be subject to periodic consultations within the Stabilisation and Association Committee in particular with a view to their termination as soon as the conditions for their application no longer exist.

5. At the same time as the notification to the Stabilisation and Association Committee under paragraph 4(a), the Party concerned should publish a notice to importers in its Official Journal. The notice to importers should indicate for the product concerned that there is a finding, on the basis of objective information, of a failure to provide administrative cooperation and/or of irregularities or fraud.

ARTICLE 44

In case of error by the competent authorities in the proper management of the preferential system of export, and in particular in the application of the provisions of Protocol 4 concerning the definition of the concept of "originating products" and methods of administrative cooperation, where this error leads to consequences in terms of import duties, the Party facing such consequences may request the Stabilisation and Association Council to examine the possibilities of adopting all appropriate measures with a view to resolving the situation.

ARTICLE 45

The application of this Agreement shall be without prejudice to the application of the provisions of Community law to the Canary Islands.

 - treatment accorded to workers who are Albanian nationals and who are legally employed in the territory of a Member State shall be free of any discrimination based on nationality, as regards working conditions, remuneration or dismissal, compared to its own nationals;
 - the legally resident spouse and children of a worker legally employed in the territory of a Member State, with the exception of seasonal workers and of workers coming under bilateral Agreements within the meaning of Article 47, unless otherwise provided by such Agreements, shall have access to the labour market of that Member State, during the period of that worker's authorised stay of employment.

2. Albania shall, subject to the conditions and modalities in that country, accord the treatment referred to in paragraph 1 to workers who are nationals of a Member State and are legally employed in its territory as well as to their spouse and children who are legally resident in the said country.

ARTICLE 47

1. Taking into account the labour market situation in the Member States, subject to their legislation and to compliance with the rules in force in the Member States in the area of mobility of workers:

- the existing facilities of access to employment for Albanian workers accorded by Member States under bilateral Agreements should be preserved and if possible improved;
- the other Member States shall examine the possibility of concluding similar Agreements.

2. The Stabilisation and Association Council shall examine the granting of other improvements, including facilities for access to professional training, in accordance with the rules and procedures in force in the Member States, and taking into account the labour market situation in the Member States and in the Community.

ARTICLE 48

1. Rules shall be laid down for the coordination of social security systems for workers with Albanian nationality, legally employed in the territory of a Member State, and for the members of their families legally resident there. To that effect, a Decision of the Stabilisation and Association Council, which should not affect any rights or obligations arising from bilateral Agreements where the latter provide for more favourable treatment, shall put the following provisions in place:

- all periods of insurance, employment or residence completed by such workers in the various Member States shall be added together for the purpose of pensions and annuities in respect of old age, invalidity and death and for the purpose of medical care for such workers and such family members;
- any pensions or annuities in respect of old age, death, industrial accident or occupational disease, or of invalidity resulting therefrom, with the exception of non-contributory benefits, shall be freely transferable at the rate applied by virtue of the law of the debtor Member State or States;

- (a) "Community company" or "Albanian company" respectively shall mean a company set up in accordance with the laws of a Member State or of Albania respectively and having its registered office or central administration or principal place of business in the territory of the Community or Albania respectively.

However, should the company, set up in accordance with the laws of a Member State or of Albania respectively, have only its registered office in the territory of the Community or of Albania respectively, the company shall be considered a Community or an Albanian company respectively if its operations possess a real and continuous link with the economy of one of the Member States or of Albania respectively.

- (b) "Subsidiary" of a company shall mean a company which is effectively controlled by the first company.

- (c) "Branch" of a company shall mean a place of business not having legal personality which has the appearance of permanency, such as the extension of a parent body, has a management and is materially equipped to negotiate business with third parties so that the latter, although knowing that there will if necessary be a legal link with the parent body, the head office of which is abroad, do not have to deal directly with such parent body but may transact business at the place of business constituting the extension.
- (d) "Establishment" shall mean:
- (i) as regards nationals, the right to take up economic activities as self-employed persons, and to set up undertakings, in particular companies, which they effectively control. Self-employment and business undertakings by nationals shall not extend to seeking or taking employment in the labour market or confer a right of access to the labour market of another Party. The provisions of this Chapter do not apply to those who are not exclusively self-employed;
 - (ii) as regards Community or Albanian companies, the right to take up economic activities by means of the setting up of subsidiaries and branches in Albania or in the Community respectively.
- (e) "Operations" shall mean the pursuit of economic activities.
- (f) "Economic activities" shall in principle include activities of an industrial, commercial and professional character and activities of craftsmen.

- (g) "Community national" and "Albanian national" shall mean a natural person who is a national of one of the Member States or of Albania respectively.
- (h) With regard to international maritime transport, including intermodal operations involving a sea leg, nationals of the Member States or of Albania established outside the Community or Albania respectively, and shipping companies established outside the Community or Albania and controlled by nationals of a Member State or Albanian nationals respectively, shall also be beneficiaries of the provisions of this Chapter and Chapter III, if their vessels are registered in that Member State or in Albania respectively, in accordance with their respective legislation.
- (i) "Financial services" shall mean the activities as defined in Annex IV. The Stabilisation and Association Council may extend or modify the scope of that Annex.

ARTICLE 50

1. Albania shall facilitate the setting-up of operations on its territory by Community companies and nationals. To that end, it shall grant, upon the date of entry into force of this Agreement:
 - (i) as regards the establishment of Community companies treatment no less favourable than that accorded to its own companies or to any third country company, whichever is the better, and;

- (ii) as regards the operation of subsidiaries and branches of Community companies in Albania, once established, treatment no less favourable than that accorded to its own companies and branches or to any subsidiary and branch of any third country company, whichever is the better.
2. The Parties shall not adopt any new regulations or measures which would introduce discrimination as regards the establishment of Community or Albanian companies on their territory or in respect of their operation, once established, by comparison with their own companies.
3. The Community and its Member States shall grant, from the date of entry into force of this Agreement:
- (i) as regards the establishment of Albanian companies, treatment no less favourable than that accorded by Member States to their own companies or to any company of any third country, whichever is the better;
 - (ii) as regards the operation of subsidiaries and branches of Albanian companies, established in their territory, treatment no less favourable than that accorded by Member States to their own companies and branches, or to any subsidiary and branch of any third country company, established in their territory, whichever is the better.
4. Five years after the date of entry into force of this Agreement, the Stabilisation and Association Council shall establish the modalities to extend the above provisions to the establishment of nationals of both Parties to take up economic activities as self-employed persons.

5. Notwithstanding the provisions of this Article:

- (a) subsidiaries and branches of Community companies shall have, from the date of entry into force of this Agreement, the right to use and rent real property in Albania;
- (b) subsidiaries and branches of Community companies shall also have the right to acquire and enjoy ownership rights over real property as Albanian companies and as regards public goods/goods of common interest, the same rights as enjoyed by Albanian companies, where these rights are necessary for the conduct of the economic activities for which they are established excluding natural resources, agricultural land, forests and forestry land. Seven years after the date of entry into force of this Agreement the Stabilisation and Association Council shall establish the modalities for extending rights under this paragraph to the excluded sectors.

ARTICLE 51

1. Subject to the provisions of Article 50, with the exception of financial services as defined in Annex IV, each Party may regulate the establishment and operation of companies and nationals on its territory, insofar as these regulations do not discriminate against companies and nationals of the other Party in comparison with its own companies and nationals.

2. In respect of financial services, notwithstanding any other provisions of this Agreement, a Party shall not be prevented from taking measures for prudential reasons, including for the protection of investors, depositors, policy holders or persons to whom a fiduciary duty is owed by a financial service supplier, or to ensure the integrity and stability of the financial system. Such measures shall not be used as a means of avoiding the Party's obligations under this Agreement.
3. Nothing in this Agreement shall be construed to require a Party to disclose information relating to the affairs and accounts of individual customers or any confidential or proprietary information in the possession of public entities.

ARTICLE 52

1. Without prejudice to the Multilateral Agreement on the Establishment of a European Common Aviation Area (ECAA), the provisions of this Chapter shall not apply to air transport services, inland waterways transport services and maritime cabotage services.
2. The Stabilisation and Association Council may make recommendations for improving establishment and operations in the areas covered by paragraph 1.

ARTICLE 53

1. The provisions of Articles 50 and 51 do not preclude the application by a Party of particular rules concerning the establishment and operation in its territory of branches of companies of another Party not incorporated in the territory of the first Party, which are justified by legal or technical differences between such branches as compared to branches of companies incorporated in its territory or, as regards financial services, for prudential reasons.
2. The difference in treatment shall not go beyond what is strictly necessary as a result of such legal or technical differences or, as regards financial services, for prudential reasons.

ARTICLE 54

In order to make it easier for Community nationals and Albanian nationals to take up and pursue regulated professional activities in Albania and the Community respectively, the Stabilisation and Association Council shall examine which steps are necessary for the mutual recognition of qualifications. It may take all necessary measures to that end.

ARTICLE 55

1. A Community company or an Albanian company established in the territory of Albania or the Community respectively shall be entitled to employ, or have employed by one of its subsidiaries or branches, in accordance with the legislation in force in the host country of establishment, in the territory of Albania and the Community respectively, employees who are nationals of the Member States and of Albania respectively, provided that such employees are key personnel as defined in paragraph 2 and that they are employed exclusively by companies, subsidiaries or branches. The residence and work permits of such employees shall only cover the period of such employment.

2. Key personnel of the abovementioned companies, herein referred to as "organisations", are "intra-corporate transferees" as defined in point (c) in the following categories, provided that the organisation is a legal person and that the persons concerned have been employed by it or have been partners in it (other than as majority shareholders), for at least the year immediately preceding such movement:

- (a) Persons working in a senior position with an organisation, who primarily direct the management of the establishment, receiving general supervision or direction principally from the board of directors or stockholders of the business or their equivalent including:
 - directing the establishment or a department or sub-division of the establishment;
 - supervising and controlling the work of other supervisory, professional or managerial employees;

- having the authority personally to recruit and dismiss or recommend recruiting, dismissing or other personnel actions;

- (b) Persons working within an organisation who possess uncommon knowledge essential to the establishment's service, research equipment, techniques or management. The assessment of such knowledge may reflect, apart from knowledge specific to the establishment, a high level of qualification referring to a type of work or trade requiring specific technical knowledge, including membership of an accredited profession;
- (c) An "intra-corporate transferee" is defined as a natural person working within an organisation in the territory of a Party, and being temporarily transferred in the context of pursuit of economic activities in the territory of the other Party; the organisation concerned must have its principal place of business in the territory of a Party and the transfer be to an establishment (branch, subsidiary) of that organisation, effectively pursuing like economic activities in the territory of the other Party.

3. The entry into and the temporary presence within the territory of the Community or Albania of Albanian and Community nationals respectively shall be permitted, when these representatives of companies are persons working in a senior position, as defined in paragraph 2(a), within a company, and are responsible for the setting up of a Community subsidiary or branch of an Albanian company or of an Albanian subsidiary or branch of a Community company in a Member State or in Albania respectively, when:

- those representatives are not engaged in making direct sales or supplying services, and
- the company has its principal place of business outside the Community or Albania, respectively, and has no other representative, office, branch or subsidiary in that Member State or in Albania respectively.

ARTICLE 56

During the first five years following the date of entry into force of this Agreement, Albania may, on a transitional basis, introduce measures which derogate from the provisions of this Chapter as regards the establishment of Community companies and nationals of certain industries which:

- are undergoing restructuring, or are facing serious difficulties, particularly where these entail serious social problems in Albania, or
- face the elimination or a drastic reduction of the total market share held by Albanian companies or nationals in a given sector or industry in Albania, or
- are newly emerging industries in Albania.

Such measures:

- (i) shall cease to apply at the latest seven years after the date of entry into force of this Agreement;
- (ii) shall be reasonable and necessary in order to remedy the situation; and
- (iii) shall not introduce discrimination concerning the activities of Community companies or nationals already established in Albania at the time of introduction of a given measure, by comparison with Albanian companies or nationals.

While devising and applying such measures, Albania shall grant preferential treatment wherever possible to Community companies and nationals, and in no case treatment less favourable than that accorded to companies or nationals from any third country. Prior to the adoption of these measures, Albania shall consult the Stabilisation and Association Council and shall not put them into effect before a one-month period has elapsed following the notification to the Stabilisation and Association Council of the concrete measures to be introduced by Albania, except where the threat of irreparable damage requires the taking of urgent measures, in which case Albania shall consult the Stabilisation and Association Council immediately after their adoption.

Upon the expiry of the fifth year following the date of entry into force of this Agreement, Albania may introduce or maintain such measures only with the authorisation of the Stabilisation and Association Council and under conditions determined by the latter.

CHAPTER III

SUPPLY OF SERVICES

ARTICLE 57

1. The Parties undertake in accordance with the following provisions to take the necessary steps to allow progressively the supply of services by Community or Albanian companies or nationals which are established in a Party other than that of the person for whom the services are intended.

2. In step with the liberalisation process mentioned in paragraph 1, the Parties shall permit the temporary movement of natural persons providing the service or who are employed by the service provider as key personnel as defined in Article 55(2), including natural persons who are representatives of a Community or Albanian company or national and are seeking temporary entry for the purpose of negotiating for the sale of services or entering into agreements to sell services for that service provider, where those representatives will not be engaged in making direct sales to the general public or in supplying services themselves.

3. Five years after the date of entry into force of this Agreement, the Stabilisation and Association Council shall take the measures necessary to implement progressively the provisions of paragraph 1. Account shall be taken of the progress achieved by the Parties in the approximation of their laws.

ARTICLE 58

1. The Parties shall not take any measures or actions which render the conditions for the supply of services by Community and Albanian nationals or companies which are established in a Party other than that of the person for whom the services are intended significantly more restrictive as compared to the situation existing on the day preceding the date of entry into force of this Agreement.

2. If one Party is of the view that measures introduced by the other Party since the date of entry into force of this Agreement result in a situation which is significantly more restrictive in respect of supply of services as compared with the situation existing at the date of entry into force of this Agreement, such first Party may request the other Party to enter into consultations.

ARTICLE 59

With regard to supply of transport services between the Community and Albania, the following provisions shall apply:

1. With regard to inland transport, Protocol 5 lays down the rules applicable to the relationship between the Parties in order to ensure, particularly, unrestricted road transit traffic across Albania and the Community as a whole, the effective application of the principle of non-discrimination and progressive harmonisation of the Albanian transport legislation with that of the Community.
2. With regard to international maritime transport, the Parties undertake to apply effectively the principle of unrestricted access to the market and traffic on a commercial basis, and to respect international and European obligations in the field of safety, security and environmental standards. The Parties affirm their commitment to a freely competitive environment as an essential feature of international maritime transport.
3. In applying the principles of paragraph 2:
 - (a) the Parties shall not introduce cargo-sharing clauses in future bilateral Agreements with third countries;
 - (b) the Parties shall abolish, upon the date of entry into force of this Agreement, all unilateral measures and administrative, technical and other obstacles that could have restrictive or discriminatory effects on the free supply of services in international maritime transport.

(c) each Party shall grant, *inter alia*, no less favourable treatment for the ships operated by nationals or companies of the other Party than that accorded to a Party's own ships with regard to access to ports open to international trade, the use of infrastructure and auxiliary maritime services of the ports, as well as related fees and charges, customs facilities and the assignment of berths and facilities for loading and unloading.

4. With a view to ensuring a coordinated development and progressive liberalisation of transport between the Parties adapted to their reciprocal commercial needs, the conditions of mutual market access in air transport shall be dealt with by special Agreements to be negotiated between the Parties.

5. Prior to the conclusion of the Agreements referred to in paragraph 4, the Parties shall not take any measures or actions which are more restrictive or discriminatory as compared with the situation existing prior to the date of entry into force of this Agreement.

6. Albania shall adapt its legislation, including administrative, technical and other rules, to that of the Community existing at any time in the field of air, maritime and inland transport insofar as it serves liberalisation purposes and mutual access to markets of the Parties and facilitates the movement of passengers and of goods.

7. In step with the common progress in the achievement of the objectives of this Chapter, the Stabilisation and Association Council shall examine ways of creating the conditions necessary for improving freedom to provide air and inland transport services.

CHAPTER IV

CURRENT PAYMENTS AND MOVEMENT OF CAPITAL

ARTICLE 60

The Parties undertake to authorise, in freely convertible currency, in accordance with the provisions of Article VIII of the Articles of the Agreement of the International Monetary Fund, any payments and transfers on the current account of balance of payments between the Community and Albania.

ARTICLE 61

1. With regard to transactions on the capital and financial account of balance of payments, from the date of entry into force of this Agreement, the Parties shall ensure the free movement of capital relating to direct investments made in companies formed in accordance with the laws of the host country and investments made in accordance with the provisions of Chapter II of Title V, and the liquidation or repatriation of these investments and of any profit stemming therefrom.
2. With regard to transactions on the capital and financial account of balance of payments, from the date of entry into force of this Agreement, the Parties shall ensure the free movement of capital relating to credits related to commercial transactions or to the provision of services in which a resident of one of the Parties is participating, and to financial loans and credits, with maturity longer than a year.

As from the date of entry into force of this Agreement, Albania shall authorise, by making full and expedient use of its legal framework and procedures, the acquisition of real estate in Albania by nationals of Member States of the European Union, except for the limitations provided for in Albania's Schedule of Specific Commitment under the General Agreement on Trade in Services (GATS). Within seven years from the date of entry into force of this Agreement, Albania shall progressively adjust its legislation concerning the acquisition of real estate in Albania by nationals of the Member States of the European Union to ensure no less favourable treatment than that accorded to Albanian nationals. Five years after the date of entry into force of this Agreement, the Stabilisation and Association Council shall examine the modalities for the progressive elimination of such limitations.

The Parties shall also ensure, from the fifth year after the date of entry into force of this Agreement, free movement of capital relating to portfolio investment and financial loans and credits with maturity shorter than a year.

3. Without prejudice to paragraph 1, the Parties shall not introduce any new restrictions on the movement of capital and current payments between residents of the Community and Albania and shall not make the existing arrangements more restrictive.

4. Without prejudice to the provisions of Article 60 and of this Article, where, in exceptional circumstances, movements of capital between the Community and Albania cause, or threaten to cause, serious difficulties for the operation of exchange rate policy or monetary policy in the Community or Albania, the Community and Albania, respectively, may take safeguard measures with regard to movements of capital between the Community and Albania for a period not exceeding one year if such measures are strictly necessary.

5. Nothing in the above provisions shall be taken to limit the rights of economic operators of the Parties from benefiting from any more favourable treatment that may be provided for in any existing bilateral or multilateral Agreement involving Parties to this Agreement.

6. The Parties shall consult each other with a view to facilitating the movement of capital between the Community and Albania in order to promote the objectives of this Agreement.

ARTICLE 62

1. During the first three years following the date of entry into force of this Agreement, the Parties shall take measures permitting the creation of the necessary conditions for the further gradual application of Community rules on the free movement of capital.

2. By the end of the third year following the date of entry into force of this Agreement, the Stabilisation and Association Council shall determine the modalities for full application of Community rules on the movement of capital.

CHAPTER V

GENERAL PROVISIONS

ARTICLE 63

1. The provisions of this Title shall be applied subject to limitations justified on grounds of public policy, public security or public health.
2. They shall not apply to activities that in the territory of either Party are connected, even occasionally, with the exercise of official authority.

ARTICLE 64

For the purpose of this Title, nothing in this Agreement shall prevent the Parties from applying their laws and regulations regarding entry and stay, employment, working conditions, establishment of natural persons and supply of services, provided that, in so doing, they do not apply them in such a manner as to nullify or impair the benefits accruing to any Party under the terms of a specific provision of this Agreement. This provision shall be without prejudice to the application of Article 63.

ARTICLE 65

Companies which are controlled and exclusively owned jointly by Albanian companies or nationals and Community companies or nationals shall also be covered by the provisions of this Title.

ARTICLE 66

1. The MFN treatment granted in accordance with the provisions of this Title shall not apply to the tax advantages that the Parties are providing or will provide in the future on the basis of Agreements designed to avoid double taxation or other tax arrangements.
2. None of the provisions of this Title shall be construed to prevent the adoption or enforcement by the Parties of any measure aimed at preventing the avoidance or evasion of taxes pursuant to the tax provisions of Agreements designed to avoid double taxation and other tax arrangements or domestic fiscal legislation.
3. None of the provisions of this Title shall be construed to prevent Member States or Albania, in applying the relevant provisions of their fiscal legislation, from distinguishing between taxpayers who are not in identical situations, in particular as regards their place of residence.

ARTICLE 67

1. The Parties shall endeavour wherever possible to avoid the imposition of restrictive measures, including measures relating to imports, for balance of payments purposes. A Party adopting such measures shall present as soon as possible to the other Party a timetable for their removal.
2. Where one or more Member States or Albania is in serious balance of payments difficulties, or under imminent threat thereof, the Community or Albania, as the case may be, may, in accordance with the conditions established under the WTO Agreement, adopt restrictive measures, including measures relating to imports, which shall be of limited duration and may not go beyond what is strictly necessary to remedy the balance of payments situation. The Community or Albania, as the case may be, shall inform the other Party forthwith.
3. Any restrictive measures shall not apply to transfers related to investment and in particular to the repatriation of amounts invested or reinvested or any kind of revenues stemming therefrom.

ARTICLE 68

The provisions of this Title shall be progressively adjusted, notably in the light of requirements arising from Article V of the General Agreement on Trade in Services (GATS).

ARTICLE 69

The provisions of this Agreement shall not prejudice the application by either Party of any measure necessary to prevent the circumvention of its measures concerning third-country access to its market through the provisions of this Agreement.

TITLE VI

APPROXIMATION OF LAWS, LAW ENFORCEMENT AND COMPETITION RULES

ARTICLE 70

1. The Parties recognise the importance of the approximation of Albania's existing legislation to that of the Community and of its effective implementation. Albania shall endeavour to ensure that its existing laws and future legislation shall be gradually made compatible with the Community acquis. Albania shall ensure that existing and future legislation shall be properly implemented and enforced.
2. This approximation shall start on the date of signing of this Agreement, and shall gradually extend to all the elements of the Community acquis referred to in this Agreement by the end of the transitional period as defined in Article 6.

3. During the first stage as defined in Article 6, approximation shall focus on fundamental elements of the Internal Market acquis as well as on other important areas such as competition, intellectual, industrial and commercial property rights, public procurement, standards and certification, financial services, land and maritime transport – with special emphasis on safety and environmental standards as well as social aspects – company law, accounting, consumer protection, data protection, health and safety at work and equal opportunities. During the second stage, Albania shall focus on the remaining parts of the acquis.

Approximation will be carried out on the basis of a programme to be agreed between the Commission of the European Communities and Albania.

4. Albania shall also define, in agreement with the Commission of the European Communities, the modalities for the monitoring of the implementation of approximation of legislation and law enforcement actions to be taken.

ARTICLE 71

Competition and other economic provisions

1. The following shall be incompatible with the proper functioning of this Agreement, insofar as they may affect trade between the Community and Albania:

- (i) all agreements between undertakings, decisions by Associations of undertakings and concerted practices between undertakings which have as their object or effect the prevention, restriction or distortion of competition;

- (ii) abuse by one or more undertakings of a dominant position in the territories of the Community or of Albania as a whole or in a substantial part thereof;
- (iii) any State aid which distorts or threatens to distort competition by favouring certain undertakings or certain products.

2. Any practices contrary to this Article shall be assessed on the basis of criteria arising from the application of the competition rules applicable in the Community, in particular from Articles 81, 82, 86 and 87 of the Treaty establishing the European Community and interpretative instruments adopted by the Community institutions.

3. The Parties shall ensure that an operationally independent public body is entrusted with the powers necessary for the full application of paragraph 1(i) and (ii), regarding private and public undertakings and undertakings to which special rights have been granted.

4. Albania shall establish an operationally independent authority which is entrusted with the powers necessary for the full application of paragraph 1(iii) within four years from the date of entry into force of this Agreement. This authority shall have, *inter alia*, the powers to authorise State aid schemes and individual aid grants in conformity with paragraph 2, as well as the powers to order the recovery of State aid that has been unlawfully granted.

5. Each Party shall ensure transparency in the area of State aid, *inter alia* by providing to the other Party a regular annual report, or equivalent, following the methodology and the presentation of the Community survey on State aid. Upon request by one Party, the other Party shall provide information on particular individual cases of public aid.

6. Albania shall establish a comprehensive inventory of aid schemes instituted before the establishment of the authority referred to in paragraph 4 and shall align such aid schemes with the criteria referred to in paragraph 2 within a period of no more than four years from the date of entry into force of this Agreement.

7. For the purposes of applying the provisions of paragraph 1(iii), the Parties recognise that during the first ten years after the date of entry into force of this Agreement, any public aid granted by Albania shall be assessed taking into account the fact that Albania shall be regarded as an area identical to those areas of the Community described in Article 87(3)(a) of the Treaty establishing the European Community.

Within five years from the date of entry into force of this Agreement, Albania shall submit to the Commission of the European Communities its GDP per capita figures harmonised at NUTS II level. The authority referred to in paragraph 4 and the Commission of the European Communities shall then jointly evaluate the eligibility of the regions of Albania as well as the maximum aid intensities in relation thereto in order to draw up the regional aid map on the basis of the relevant Community guidelines.

8. With regard to products referred to in Chapter II of Title IV:

- paragraph 1(iii) shall not apply;
- any practices contrary to paragraph 1(i) shall be assessed according to the criteria established by the Community on the basis of Articles 36 and 37 of the Treaty establishing the European Community and specific Community instruments adopted on this basis.

9. If one of the Parties considers that a particular practice is incompatible with the terms of paragraph 1, it may take appropriate measures after consultation within the Stabilisation and Association Council or after thirty working days following referral for such consultation.

Nothing in this Article shall prejudice or affect in any way the taking, by either Party, of antidumping or countervailing measures in accordance with the relevant Articles of GATT 1994 and the WTO Agreement on Subsidies and Countervailing Measures or related internal legislation.

ARTICLE 72

Public undertakings

By the end of the third year following the date of entry into force of this Agreement, Albania shall apply to public undertakings and undertakings to which special and exclusive rights have been granted the principles set out in the Treaty establishing the European Community, with particular reference to Article 86 thereof.

Special rights of public undertakings during the transitional period shall not include the possibility of imposing quantitative restrictions or measures having an equivalent effect on imports from the Community into Albania.

ARTICLE 73

Intellectual, industrial and commercial property

1. Pursuant to the provisions of this Article and Annex V, the Parties confirm the importance that they attach to ensuring adequate and effective protection and enforcement of intellectual, industrial and commercial property rights.
2. Albania shall take all the necessary measures in order to guarantee no later than four years after the date of entry into force of this Agreement a level of protection of intellectual, industrial and commercial property rights similar to that existing in the Community, including effective means of enforcing such rights.
3. Albania undertakes to accede, within four years after the date of entry into force of this Agreement, to the multilateral Conventions on intellectual, industrial and commercial property rights referred to in paragraph 1 of Annex V. The Stabilisation and Association Council may decide to oblige Albania to accede to specific multilateral Conventions in this area.
4. If problems in the area of intellectual, industrial and commercial property affecting trading conditions occur, they shall be referred urgently to the Stabilisation and Association Council, at the request of either Party, with a view to reaching mutually satisfactory solutions.

ARTICLE 74

Public contracts

1. The Parties consider the opening-up of the award of public contracts on the basis of non-discrimination and reciprocity, in particular in the WTO context, to be a desirable objective.
2. Albanian companies, whether established or not in the Community, shall be granted access to contract award procedures in the Community pursuant to Community procurement rules under treatment no less favourable than that accorded to Community companies as from the date of entry into force of this Agreement.

The above provisions shall also apply to contracts in the utilities sector once the government of Albania has adopted the legislation introducing the Community rules in this area. The Community shall examine periodically whether Albania has indeed introduced such legislation.

3. Community companies not established in Albania shall be granted access to contract award procedures in Albania pursuant to the Albanian Law on Public Procurement under treatment no less favourable than that accorded to Albanian companies at the latest four years after the date of entry into force of this Agreement.
4. The Stabilisation and Association Council shall periodically examine the possibility of Albania introducing access to contract award procedures in Albania for all Community companies.

ARTICLE 3

1. Upon the date of entry into force of the Agreement, customs duties applicable in Albania on imports of iron and steel products originating in the Community that are referred to in Article 19 of the Agreement and listed in Annex I thereto shall be progressively reduced in accordance with the timetable contained therein.

2. Quantitative restrictions on imports into Albania of iron and steel products originating in the Community, as well as measures having equivalent effect, shall be abolished on the date of entry into force of the Agreement.

ARTICLE 5

1. In view of the disciplines stipulated by Article 71 of the Agreement, the Parties recognise the need and urgency for each Party to address promptly any structural weaknesses in its iron and steel sector to ensure the global competitiveness of its industry. Albania shall therefore establish within three years the necessary restructuring and conversion programme for its iron and steel industry to achieve viability of this sector under normal market conditions. Upon request, the Community shall provide Albania with the appropriate technical advice to achieve this objective.
2. Further to the disciplines stipulated by Article 71 of the Agreement, any practices contrary to this Article shall be assessed on the basis of specific criteria arising from the application of the State aid disciplines of the Community, including secondary legislation, and including any specific rules on State aid control applicable to the iron and steel sector after the expiry of the Treaty establishing the European Coal and Steel Community.

3. For the purposes of applying the provisions of paragraph 1(iii) of Article 71 of the Agreement with regard to iron and steel products, the Community recognises that during five years after the date of entry into force of the Agreement Albania may exceptionally grant State aid for restructuring purposes provided that:

- it leads to the viability of the benefiting firms under normal market conditions at the end of the restructuring period, and
- the amount and intensity of such aid are strictly limited to what is absolutely necessary in order to restore such viability and are progressively reduced, and
- the restructuring programme is linked to a global rationalisation and compensatory measures to counter the distorting effect of the aid granted in Albania.

4. Each Party shall ensure full transparency with respect to the implementation of the necessary restructuring and conversion programme by a full and continuous exchange of information to the other Party, including details of the restructuring plan as well as the amount, intensity and purpose of any State aid granted on the basis of paragraphs 2 and 3.

5. The Stabilisation and Association Council shall monitor the implementation of the requirements set out in paragraphs 1 to 4.

If one of the Parties considers that a particular practice of the other Party is incompatible with the terms of this Article, and if that practice causes or threatens to cause prejudice to the interests of the first Party or material injury to its domestic industry, this Party may take appropriate measures after consultation within the contact group referred to in Article 7 or after thirty working days following referral for such consultation.

ARTICLE 6

The provisions of Articles 20, 21 and 22 of the Agreement shall apply to trade between the Parties in iron and steel products.

The reductions provided for under the first indent shall be calculated on the part of the duty designated as the agricultural component which shall correspond to the agricultural products actually used in the manufacture of the processed agricultural products in question and deducted from the duties applied to these basic agricultural products.

ARTICLE 3

The Community and Albania shall inform each other of the administrative arrangements adopted for the products covered by this Protocol. These arrangements shall ensure equal treatment for all interested parties and shall be as simple and flexible as possible.

ARTICLE 5

Protection of names referring to Member States of the Community and to Albania

1. In Albania, references to the Member States of the Community, and other names used to indicate a Member State, for the purpose of identifying the origin of the wine, spirit drink and aromatised wine:

- (a) are reserved for wines, spirit drinks and aromatised wines originating in the Member State concerned, and

- (b) may not be used by the Community otherwise than under the conditions provided for by the laws and regulations of the Community.

2. In the Community, references to Albania, and other names used to indicate Albania, for the purpose of identifying the origin of the wine, spirit drink and aromatised wine:

- (a) are reserved for wines, spirit drinks and aromatised wines originating in Albania, and
- (b) may not be used by Albania otherwise than under the conditions provided for by the laws and regulations of Albania.

ARTICLE 6

Protection of geographical indications

1. In Albania, the geographical indications for the Community which are listed in Appendix 1, Part A:

- (a) are protected for wines, spirit drinks and aromatised wines originating in the Community, and
- (b) may not be used by the Community otherwise than under the conditions provided for by the laws and regulations of the Community.

2. In the Community, the geographical indications for Albania which are listed in Appendix 1, Part B:

- (a) are protected for wines, spirit drinks and aromatised wines originating in Albania, and
- (b) may not be used by Albania otherwise than under the conditions provided for by the laws and regulations of Albania.

3. The Contracting Parties shall take all measures necessary, in accordance with this Agreement, for the reciprocal protection of the names referred to in Article 4 which are used for the description and presentation of wines, spirit drinks and aromatised wines originating in the territory of the Contracting Parties. To that end, each Contracting Party shall make use of the appropriate legal means referred to in Article 23 of the WTO TRIPS Agreement to ensure an effective protection and prevent geographical indications from being used to identify wines, spirit drinks and aromatised wines not covered by the indications or the descriptions concerned.

4. The geographical indications referred to in Article 4 shall be reserved exclusively for the products originating in the Contracting Party to which they apply and may be used only under the conditions laid down in the laws and regulations of that Contracting Party.

5. The protection provided for in this Agreement shall prohibit in particular any use of protected names for wines, spirit drinks and aromatised wines which do not originate in the geographical area indicated or in the place where the expression is traditionally used, and shall apply even when:

- the true origin of the wine, spirit drink or aromatised wine is indicated,
- the geographical indication in question is used in translation,
- the name is accompanied by terms such as "kind", "type", "style", "imitation", "method" or other expressions of the sort.

6. If geographical indications listed in Appendix 1 are homonymous, protection shall be granted to each indication provided that it has been used in good faith. The Contracting Parties shall mutually decide the practical conditions of use under which the homonymous geographical indications will be differentiated from each other, taking into account the need to ensure equitable treatment of the producers concerned and that consumers are not misled.

7. If a geographical indication listed in Appendix 1 is homonymous with a geographical indication for a third country, Article 23(3) of the TRIPs Agreement applies.

8. The provisions of this Agreement shall in no way prejudice the right of any person to use, in the course of trade, that person's name or the name of that person's predecessor in business, except where such name is used in such a manner as to mislead consumers.

9. Nothing in this Agreement shall oblige a Contracting Party to protect a geographical indication of the other Contracting Party listed in Appendix 1 which is not or ceases to be protected in its country of origin or which has fallen into disuse in that country.

10. On the date of entry into force of this Agreement, the Contracting Parties shall no longer deem that the protected geographical names listed in Appendix 1 are customary in the common language of the Contracting Parties as a common name for wines, spirit drinks and aromatised wines as provided for in Article 24(6) of the TRIPs Agreement.

ARTICLE 7

Protection of traditional expressions

1. In Albania, the traditional expressions for the Community listed in Appendix 2:

- (a) shall not be used for the description or presentation of wine originating in Albania; and
- (b) may not be used for the description or presentation of wine originating in the Community otherwise than in relation to the wines of the origin and the category and in the language as listed in Appendix 2 and under the conditions provided for by the laws and regulations of the Community.

2. Albania shall take the measures necessary, in accordance with this Agreement, for the protection of the traditional expressions referred to in Article 4 and used for the description and presentation of wines originating in the territory of the Community. To that end, Albania shall provide appropriate legal means to ensure an effective protection and prevent traditional expressions from being used to describe wine not entitled to those traditional expressions, even where the traditional expressions used are accompanied by expressions such as "kind", "type", "style", "imitation", "method" or the like.
3. The protection of a traditional expression shall apply only:
 - (a) to the language or languages in which it appears in Appendix 2 and not in translation; and
 - (b) for a category of product in relation to which it is protected for the Community as set out in Appendix 2.
4. The protection provided for in paragraph 3 is without prejudice to Article 4.

ARTICLE 8

Trademarks

1. The responsible national and regional offices of the Contracting Parties shall refuse the registration of a trademark for a wine, spirit drink or aromatised wine which is identical with, or similar to, or contains or consists of a reference to a geographical indication protected under Article 4 of this Agreement with respect to such wine, spirit drink or aromatised wine not having this origin and not complying with the relevant rules governing its use.

2. The responsible national and regional offices of the Contracting Parties shall refuse the registration of a trademark for a wine which contains or consists of a traditional expression protected under this Agreement if the wine in question is not one to which the traditional expression is reserved as indicated in Appendix 2.

3. The Government of Albania, acting within its jurisdiction and in order to achieve the objectives agreed between the Parties shall adopt the necessary measures to amend the trademarks names Amantia (Grappa) and Gjergj Kastrioti Skenderbeu Konjak so as to fully remove, by 31 December 2007, all reference to Community geographical indications protected under Article 4 of this Agreement.

ARTICLE 9

Exports

The Contracting Parties shall take all steps necessary to ensure that, where wines, spirit drinks and aromatised wines originating in a Party are exported and marketed outside that Party, the protected geographical indications referred to in Article 4(a) and (b), second indents, and in the case of wines, the traditional expressions of that Party referred to in Article 4(a), third indent, are not used to describe and present such products which originate in the other Contracting Party.

TITLE II

1. A Working Group functioning under the auspices of the Sub-Committee on Agriculture to be created in accordance with Article 121 of the Stabilisation and Association Agreement between Albania and the Community shall be established.
2. The Working Group shall see to the proper functioning of this Agreement and shall examine all questions which may arise in implementing it.
3. The Working Group may make recommendations, discuss and put forward suggestions on any matter of mutual interest in the wine, spirit drink and aromatised wine sector which would contribute to the attainment of the objectives of this Agreement. It shall meet at the request of either of the Contracting Parties, alternatively in the Community and in Albania, at a time and a place and in a manner mutually determined by the Contracting Parties.

ARTICLE 11

Tasks of the Contracting Parties

1. The Contracting Parties shall either directly or through the Working Group referred to in Article 10 maintain contact on all matters relating to the implementation and functioning of this Agreement.
2. Albania designates the Ministry of Agriculture and Food as its representative body. The European Community designates the Directorate-General for Agriculture and Rural Development of the European Commission as its representative body. A Contracting Party shall notify the other Contracting Party if it changes its representative body.
3. The representative body shall ensure the coordination of the activities of all the bodies responsible for ensuring the enforcement of this Agreement.
4. The Contracting Parties shall:
 - (a) mutually amend the lists referred to in Article 4 to this Agreement by decision of the Stabilisation and Association Committee to take account of any amendments to the laws and regulations of the Contracting Parties;

- (b) mutually decide, by decision of the Stabilisation and Association Committee, that the Appendices to this Agreement should be modified. The Appendices shall be deemed to be modified from the date recorded in an Exchange of Letters between the Contracting Parties, or the date of the Working Group decision, as the case requires;
- (c) mutually decide the practical conditions referred to in Article 6(6).
- (d) inform each other of the intention to adopt new regulations or amendments of existing regulations of public policy concern, such as health or consumer protection, with implications for the wine, spirit and aromatised wine sector;
- (e) notify each other of any legislative, administrative and judicial decisions concerning the implementation of this Agreement and inform each other of measures adopted on the basis of such decisions.

ARTICLE 12

Application and operation of the Agreement

The Contracting Parties shall designate the contact points set out in Appendix 3 to be responsible for the application and operation of this Agreement.

ARTICLE 13

Enforcement and mutual assistance between the Contracting Parties

1. If the description or presentation of a wine, spirit drink or aromatised wine in particular on the labelling, in official or commercial documents or in advertising, is in breach of this Agreement, the Contracting Parties shall apply the necessary administrative measures and/or shall initiate legal proceedings with a view to combating unfair competition or preventing the wrongful use of the protected name in any other way.
2. The measures and proceedings referred to in paragraph 1 shall be taken in particular:
 - (a) where descriptions or translations of descriptions, names, inscriptions or illustrations relating to wine, spirit or aromatised wine drinks whose names are protected under this Agreement are used, directly or indirectly, which give false or misleading information as to the origin, nature or quality of the wine, spirit drink or aromatised wine.
 - (b) where, for packaging, containers are used which are misleading as to the origin of the wine.
3. If one of the Contracting Parties has reason to suspect that:
 - (a) a wine, spirit drink or aromatised wine as defined in Article 2, being or having been traded in Albania and the Community, does not comply with rules governing the wine, spirit drink or aromatised wine sector in the Community or in Albania or with this Agreement; and

- (b) this non-compliance is of particular interest to the other Contracting Party and could result in administrative measures and/or legal proceedings being taken, it shall immediately inform the representative body of the other Contracting Party.

4. The information to be provided in accordance with paragraph 3 shall include details of the non-compliance with the rules governing the wine, spirit drink and aromatised wine sector of the Contracting Party and/or this Agreement and shall be accompanied by official, commercial or other appropriate documents, with details of any administrative measures or legal proceedings that may, if necessary, be taken.

ARTICLE 14

Consultations

1. The Contracting Parties shall enter into consultations if one of them considers that the other has failed to fulfil an obligation under this Agreement.
2. The Contracting Party which requests the consultations shall provide the other Party with all the information necessary for a detailed examination of the case in question.
3. In cases where any delay could endanger human health or impair the effectiveness of measures to control fraud, appropriate interim protective measures may be taken, without prior consultation, provided that consultations are held immediately after the taking of these measures.

4. If, following the consultations provided for in paragraphs 1 and 3, the Contracting Parties have not reached an agreement, the Party which requested the consultations or which took the measures referred to in paragraph 3 may take appropriate measures in accordance with Article 126 of the Stabilisation and Association Agreement so as to permit the proper application of this Agreement.

1. Wines, spirit drinks or aromatised wines which, at the time of the date of entry into force of this Agreement, have been produced, prepared, described and presented in compliance with the internal laws and regulations of the Contracting Parties but are prohibited by this Agreement may be sold until stocks run out.
2. Except where provisions to the contrary are adopted by the Contracting Parties, wines, spirit drinks or aromatised wines which have been produced, prepared, described and presented in compliance with this Agreement but whose production, preparation, description and presentation cease to comply therewith as a result of an amendment thereto may continue to be marketed until stocks run out.

 - (g) products made aboard their factory ships exclusively from products referred to in (f);
 - (h) used articles collected there fit only for the recovery of raw materials, including used tyres fit only for retreading or for use as waste;

- (i) waste and scrap resulting from manufacturing operations conducted there;
- (j) products extracted from marine soil or subsoil outside their territorial waters provided that they have sole rights to work that soil or subsoil; and
- (k) goods produced there exclusively from the products specified in (a) to (j).

2. The terms "their vessels" and "their factory ships" in paragraph 1(f) and (g) shall apply only to vessels and factory ships:

- (a) which are registered or recorded in a Member State of the Community or in Albania;
- (b) which sail under the flag of a Member State of the Community or of Albania;
- (c) which are owned to an extent of at least 50% by nationals of a Member State of the Community or of Albania, or by a company with its head office in one of these States, of which the manager or managers, Chairman of the Board of Directors or the Supervisory Board, and the majority of the members of such boards are nationals of a Member State of the Community or of Albania and of which, in addition, in the case of partnerships or limited companies, at least half the capital belongs to those States or to public bodies or nationals of the said States;

- (d) of which the master and officers are nationals of a Member State of the Community or of Albania; or
- (e) of which at least 75% of the crew are nationals of a Member State of the Community or of Albania.

ARTICLE 6

Sufficiently worked or processed products

1. For the purposes of Article 2, products which are not wholly obtained are considered to be sufficiently worked or processed when the conditions set out in the list in Annex II are fulfilled.

The conditions referred to above indicate, for all products covered by the Agreement, the working or processing which must be carried out on non-originating materials used in manufacturing and apply only in relation to such materials. It follows that if a product which has acquired originating status by fulfilling the conditions set out in the list is used in the manufacture of another product, the conditions applicable to the product in which it is incorporated do not apply to it, and no account shall be taken of the non-originating materials which may have been used in its manufacture.

2. Notwithstanding paragraph 1, non-originating materials which, according to the conditions set out in the list, should not be used in the manufacture of a product may nevertheless be used, provided that:

- (a) their total value does not exceed 10% of the ex-works price of the product;

- (b) any of the percentages given in the list for the maximum value of non-originating materials are not exceeded through the application of this paragraph.

This paragraph shall not apply to products falling within Chapters 50 to 63 of the Harmonised System.

- 3. Paragraphs 1 and 2 shall apply subject to the provisions of Article 7.

ARTICLE 7

Insufficient working or processing

- 1. Without prejudice to paragraph 2, the following operations shall be considered as insufficient working or processing to confer the status of originating products, whether or not the requirements of Article 6 are satisfied:
 - (a) preserving operations to ensure that the products remain in good condition during transport and storage;
 - (b) breaking-up and assembly of packages;
 - (c) washing, cleaning; removal of dust, oxide, oil, paint or other coverings;

- (d) ironing or pressing of textiles;
- (e) simple painting and polishing operations;
- (f) husking, partial or total bleaching, polishing and glazing of cereals and rice;
- (g) operations to colour sugar or form sugar lumps;
- (h) peeling, stoning and shelling, of fruits, nuts and vegetables;
- (i) sharpening, simple grinding or simple cutting;
- (j) sifting, screening, sorting, classifying, grading, matching; (including the making-up of sets of articles);
- (k) simple placing in bottles, cans, flasks, bags, cases, boxes, fixing on cards or boards and all other simple packaging operations;
- (l) affixing or printing marks, labels, logos and other like distinguishing signs on products or their packaging;

- (m) simple mixing of products, whether or not of different kinds;
- (n) simple assembly of parts of articles to constitute a complete article or disassembly of products into parts;
- (o) a combination of two or more of the operations specified in (a) to (n); and
- (p) slaughter of animals.

2. All operations carried out either in the Community or in Albania on a given product shall be considered together when determining whether the working or processing undergone by that product is to be regarded as insufficient within the meaning of paragraph 1.

ARTICLE 8

Unit of qualification

1. The unit of qualification for the application of the provisions of this Protocol shall be the particular product which is considered as the basic unit when determining classification using the nomenclature of the Harmonised System.

It follows that:

- (a) when a product composed of a group or assembly of articles is classified under the terms of the Harmonised System in a single heading, the whole constitutes the unit of qualification;

(b) when a consignment consists of a number of identical products classified under the same heading of the Harmonised System, each product must be taken individually when applying the provisions of this Protocol.

2. Where, under General Rule 5 of the Harmonised System, packaging is included with the product for classification purposes, it shall be included for the purposes of determining origin.

ARTICLE 9

Accessories, spare parts and tools

Accessories, spare parts and tools dispatched with a piece of equipment, machine, apparatus or vehicle, which are part of the normal equipment and included in the price thereof or which are not separately invoiced, shall be regarded as one with the piece of equipment, machine, apparatus or vehicle in question.

ARTICLE 10

Sets

Sets, as defined in General Rule 3 of the Harmonised System, shall be regarded as originating when all component products are originating. Nevertheless, when a set is composed of originating and non-originating products, the set as a whole shall be regarded as originating, provided that the value of the non-originating products does not exceed 15% of the ex-works price of the set.

ARTICLE 11

Neutral elements

In order to determine whether a product originates, it shall not be necessary to determine the origin of the following which might be used in its manufacture:

- (a) energy and fuel;
- (b) plant and equipment;
- (c) machines and tools; or
- (d) goods which do not enter and which are not intended to enter into the final composition of the product.

TITLE III

TERRITORIAL REQUIREMENTS

ARTICLE 12

Principle of territoriality

1. The conditions for acquiring originating status set out in Title II must be fulfilled without interruption in the Community or Albania.

2. Where originating goods exported from the Community or from Albania to another country return, they must be considered as non-originating, unless it can be demonstrated to the satisfaction of the customs authorities that:

- (a) the returning goods are the same as those exported; and
- (b) they have not undergone any operation beyond that necessary to preserve them in good condition while in that country or while being exported.

3. The acquisition of originating status in accordance with the conditions set out in Title II shall not be affected by working or processing done outside the Community or Albania on materials exported from the Community or from Albania and subsequently re-imported there, provided:

- (a) the said materials are wholly obtained in the Community or in Albania or have undergone working or processing beyond the operations referred to in Article 7 prior to being exported; and
- (b) it can be demonstrated to the satisfaction of the customs authorities that:
 - (i) the re-imported goods have been obtained by working or processing the exported materials; and
 - (ii) the total added value acquired outside the Community or Albania by applying the provisions of this Article does not exceed 10% of the ex-works price of the end product for which originating status is claimed.

4. For the purposes of paragraph 3, the conditions for acquiring originating status set out in Title II shall not apply to working or processing done outside the Community or Albania. But where, in the list in Annex II, a rule setting a maximum value for all the non-originating materials incorporated is applied in determining the originating status of the end product, the total value of the non-originating materials incorporated in the territory of the party concerned, taken together with the total added value acquired outside the Community or Albania by applying the provisions of this Article, shall not exceed the stated percentage.
5. For the purposes of applying the provisions of paragraphs 3 and 4, "total added value" shall be taken to mean all costs arising outside the Community or Albania, including the value of the materials incorporated there.
6. The provisions of paragraphs 3 and 4 shall not apply to products which do not fulfil the conditions set out in the list in Annex II or which can be considered sufficiently worked or processed only if the general tolerance fixed in Article 6(2) is applied.
7. The provisions of paragraphs 3 and 4 shall not apply to products of Chapters 50 to 63 of the Harmonised System.
8. Any working or processing of the kind covered by the provisions of this Article and done outside the Community or Albania shall be done under the outward processing arrangements, or similar arrangements.

ARTICLE 13

Direct transport

1. The preferential treatment provided for under the Agreement applies only to products, satisfying the requirements of this Protocol, which are transported directly between the Community and Albania. However, products constituting one single consignment may be transported through other territories with, should the occasion arise, trans-shipment or temporary warehousing in such territories, provided that they remain under the surveillance of the customs authorities in the country of transit or warehousing and do not undergo operations other than unloading, reloading or any operation designed to preserve them in good condition.

Originating products may be transported by pipeline across territory other than that of the Community or Albania.

2. Evidence that the conditions set out in paragraph 1 have been fulfilled shall be supplied to the customs authorities of the importing country by the production of:

- (a) a single transport document covering the passage from the exporting country through the country of transit; or

- (b) a certificate issued by the customs authorities of the country of transit:
 - (i) giving an exact description of the products;
 - (ii) stating the dates of unloading and reloading of the products and, where applicable, the names of the ships, or the other means of transport used;
and
 - (iii) certifying the conditions under which the products remained in the transit country; or
- (c) failing these, any substantiating documents.

ARTICLE 14

Exhibitions

1. Originating products, sent for exhibition in a country other than the Community or Albania and sold after the exhibition for importation in the Community or in Albania, shall benefit on importation from the provisions of the Agreement provided it is shown to the satisfaction of the customs authorities that:

- (a) an exporter has consigned these products from the Community or from Albania to the country in which the exhibition is held and has exhibited them there;
- (b) the products have been sold or otherwise disposed of by that exporter to a person in the Community or in Albania;

- (c) the products have been consigned during the exhibition or immediately thereafter in the state in which they were sent for exhibition; and
 - (d) the products have not, since they were consigned for exhibition, been used for any purpose other than demonstration at the exhibition.
2. A proof of origin must be issued or made out in accordance with the provisions of Title V and submitted to the customs authorities of the importing country in the normal manner. The name and address of the exhibition must be indicated thereon. Where necessary, additional documentary evidence of the conditions under which they have been exhibited may be required.
3. Paragraph 1 shall apply to any trade, industrial, agricultural or crafts exhibition, fair or similar public show or display which is not organised for private purposes in shops or business premises with a view to the sale of foreign products, and during which the products remain under customs control.

TITLE IV DRAWBACK OR EXEMPTION

ARTICLE 15

Prohibition of drawback of, or exemption from, customs duties

1. Non-originating materials used in the manufacture of products originating in the Community or in Albania for which a proof of origin is issued or made out in accordance with the provisions of Title V shall not be subject in the Community or Albania to drawback of, or exemption from, customs duties of whatever kind.

2. The prohibition in paragraph 1 shall apply to any arrangement for refund, remission or non-payment, partial or complete, of customs duties or charges having an equivalent effect, applicable in the Community or in Albania to materials used in the manufacture, where such refund, remission or non-payment applies, expressly or in effect, when products obtained from the said materials are exported and not when they are retained for home use there.
3. The exporter of products covered by a proof of origin shall be prepared to submit at any time, upon request from the customs authorities, all appropriate documents proving that no drawback has been obtained in respect of the non-originating materials used in the manufacture of the products concerned and that all customs duties or charges having equivalent effect applicable to such materials have actually been paid.
4. The provisions of paragraphs 1 to 3 shall also apply in respect of packaging within the meaning of Article 8(2), accessories, spare parts and tools within the meaning of Article 9 and products in a set within the meaning of Article 10 when such items are non-originating.
5. The provisions of paragraphs 1 to 4 shall apply only in respect of materials which are of the kind to which the Agreement applies. Furthermore, they shall not preclude the application of an export refund system for agricultural products, applicable upon export in accordance with the provisions of the Agreement.

TITLE V
PROOF OF ORIGIN

ARTICLE 16
General requirements

1. Products originating in the Community shall, on importation into Albania, and products originating in Albania shall, on importation into the Community, benefit from the Agreement upon submission of either:
 - (a) a movement certificate EUR.1, a specimen of which appears in Annex III; or
 - (b) in the cases specified in Article 21(1), a declaration, subsequently referred to as the "invoice declaration", given by the exporter on an invoice, a delivery note or any other commercial document which describes the products concerned in sufficient detail to enable them to be identified; the text of the invoice declaration appears in Annex IV.
2. Notwithstanding paragraph 1, originating products within the meaning of this Protocol shall, in the cases specified in Article 26, benefit from the Agreement without it being necessary to submit any of the documents referred to above.

ARTICLE 17
Procedure for the issue of a movement certificate EUR.1

1. A movement certificate EUR.1 shall be issued by the customs authorities of the exporting country on application having been made in writing by the exporter or, under the exporter's responsibility, by his authorised representative.

2. For this purpose, the exporter or his authorised representative shall fill out both the movement certificate EUR.1 and the application form, specimens of which appear in Annex III. These forms shall be completed in one of the languages in which the Agreement is drawn up and in accordance with the provisions of the domestic law of the exporting country. If they are hand-written, they shall be completed in ink in printed characters. The description of the products must be given in the box reserved for this purpose without leaving any blank lines. Where the box is not completely filled, a horizontal line must be drawn below the last line of the description, the empty space being crossed through.
3. The exporter applying for the issue of a movement certificate EUR.1 shall be prepared to submit at any time, at the request of the customs authorities of the exporting country where the movement certificate EUR.1 is issued, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Protocol.
4. A movement certificate EUR.1 shall be issued by the customs authorities of a Member State of the Community or of Albania if the products concerned can be considered as products originating in the Community or in Albania and fulfil the other requirements of this Protocol.
5. The customs authorities issuing movement certificates EUR.1 shall take any steps necessary to verify the originating status of the products and the fulfilment of the other requirements of this Protocol. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate. They shall also ensure that the forms referred to in paragraph 2 are duly completed. In particular, they shall check whether the space reserved for the description of the products has been completed in such a manner as to exclude all possibility of fraudulent additions.

6. The date of issue of the movement certificate EUR.1 shall be indicated in Box 11 of the certificate.

7. A movement certificate EUR.1 shall be issued by the customs authorities and made available to the exporter as soon as actual exportation has been effected or ensured.

ARTICLE 18

Movement certificates EUR.1 issued retrospectively

1. Notwithstanding Article 17(7), a movement certificate EUR.1 may exceptionally be issued after exportation of the products to which it relates if:

- (a) it was not issued at the time of exportation because of errors or involuntary omissions or special circumstances; or
- (b) it is demonstrated to the satisfaction of the customs authorities that a movement certificate EUR.1 was issued but was not accepted at importation for technical reasons.

2. For the implementation of paragraph 1, the exporter must indicate in his application the place and date of exportation of the products to which the movement certificate EUR.1 relates, and state the reasons for his request.

3. The customs authorities may issue a movement certificate EUR.1 retrospectively only after verifying that the information supplied in the exporter's application agrees with that in the corresponding file.

ARTICLE 20

Issue of movement certificates EUR.1

on the basis of a proof of origin issued or made out previously

When originating products are placed under the control of a customs office in the Community or in Albania, it shall be possible to replace the original proof of origin by one or more movement certificates EUR.1 for the purpose of sending all or some of these products elsewhere within the Community or Albania. The replacement movement certificate(s) EUR.1 shall be issued by the customs office under whose control the products are placed.

ARTICLE 21

Conditions for making out an invoice declaration

1. An invoice declaration as referred to in Article 16(1)(b) may be made out:

(a) by an approved exporter within the meaning of Article 22; or

(b) by any exporter for any consignment consisting of one or more packages containing originating products whose total value does not exceed EUR 6 000.

2. An invoice declaration may be made out if the products concerned can be considered as products originating in the Community or in Albania and fulfil the other requirements of this Protocol.
3. The exporter making out an invoice declaration shall be prepared to submit at any time, at the request of the customs authorities of the exporting country, all appropriate documents proving the originating status of the products concerned as well as the fulfilment of the other requirements of this Protocol.
4. An invoice declaration shall be made out by the exporter by typing, stamping or printing on the invoice, the delivery note or another commercial document, the declaration, the text of which appears in Annex IV, using one of the linguistic versions set out in that Annex and in accordance with the provisions of the domestic law of the exporting country. If the declaration is hand-written, it shall be written in ink in printed characters.
5. Invoice declarations shall bear the original signature of the exporter in manuscript. However, an approved exporter within the meaning of Article 22 shall not be required to sign such declarations provided that he gives the customs authorities of the exporting country a written undertaking that he accepts full responsibility for any invoice declaration which identifies him as if it had been signed in manuscript by him.
6. An invoice declaration may be made out by the exporter when the products to which it relates are exported, or after exportation on condition that it is presented in the importing country no longer than two years after the importation of the products to which it relates.

ARTICLE 22

Approved exporter

1. The customs authorities of the exporting country may authorise any exporter, hereinafter referred to as 'approved exporter', who makes frequent shipments of products under the Agreement to make out invoice declarations irrespective of the value of the products concerned. An exporter seeking such authorisation must offer to the satisfaction of the customs authorities all guarantees necessary to verify the originating status of the products as well as the fulfilment of the other requirements of this Protocol.
2. The customs authorities may grant the status of approved exporter subject to any conditions which they consider appropriate.
3. The customs authorities shall grant to the approved exporter a customs authorisation number which shall appear on the invoice declaration.
4. The customs authorities shall monitor the use of the authorisation by the approved exporter.
5. The customs authorities may withdraw the authorisation at any time. They shall do so where the approved exporter no longer offers the guarantees referred to in paragraph 1, no longer fulfils the conditions referred to in paragraph 2 or otherwise makes an incorrect use of the authorisation.

ARTICLE 23

Validity of proof of origin

1. A proof of origin shall be valid for four months from the date of issue in the exporting country, and must be submitted within the said period to the customs authorities of the importing country.
2. Proofs of origin which are submitted to the customs authorities of the importing country after the final date for presentation specified in paragraph 1 may be accepted for the purpose of applying preferential treatment, where the failure to submit these documents by the final date set is due to exceptional circumstances.
3. In other cases of belated presentation, the customs authorities of the importing country may accept the proofs of origin where the products have been submitted before the said final date.

ARTICLE 24

Submission of proof of origin

Proofs of origin shall be submitted to the customs authorities of the importing country in accordance with the procedures applicable in that country. The said authorities may require a translation of a proof of origin and may also require the import declaration to be accompanied by a statement from the importer to the effect that the products meet the conditions required for the implementation of the Agreement.

ARTICLE 25

Importation by instalments

Where, at the request of the importer and on the conditions laid down by the customs authorities of the importing country, dismantled or non-assembled products within the meaning of General Rule 2(a) of the Harmonised System falling within Sections XVI and XVII or headings 7308 and 9406 of the Harmonised System are imported by instalments, a single proof of origin for such products shall be submitted to the customs authorities upon importation of the first instalment.

ARTICLE 26

Exemptions from proof of origin

1. Products sent as small packages from private persons to private persons or forming part of travellers' personal luggage shall be admitted as originating products without requiring the submission of a proof of origin, provided that such products are not imported by way of trade and have been declared as meeting the requirements of this Protocol and where there is no doubt as to the veracity of such a declaration. In the case of products sent by post, this declaration can be made on the customs declaration CN22/CN23 or on a sheet of paper annexed to that document.
2. Imports which are occasional and consist solely of products for the personal use of the recipients or travellers or their families shall not be considered as imports by way of trade if it is evident from the nature and quantity of the products that no commercial purpose is in view.
3. Furthermore, the total value of these products shall not exceed EUR 500 in the case of small packages or EUR 1 200 in the case of products forming part of travellers' personal luggage.

ARTICLE 27

Supporting documents

The documents referred to in Articles 17(3) and 21(3) used for the purpose of proving that products covered by a movement certificate EUR.1 or an invoice declaration can be considered as products originating in the Community or in Albania and fulfil the other requirements of this Protocol may consist *inter alia* of the following:

- (a) direct evidence of the processes carried out by the exporter or supplier to obtain the goods concerned, contained for example in his accounts or internal book-keeping;
- (b) documents proving the originating status of materials used, issued or made out in the Community or in Albania where these documents are used in accordance with domestic law;
- (c) documents proving the working or processing of materials in the Community or Albania, issued or made out in the Community or in Albania, where these documents are used in accordance with domestic law; or
- (d) movement certificates EUR.1 or invoice declarations proving the originating status of materials used, issued or made out in the Community or in Albania in accordance with this Protocol.

ARTICLE 28

Preservation of proof of origin and supporting documents

1. The exporter applying for the issue of a movement certificate EUR.1 shall keep for at least three years the documents referred to in Article 17(3).

2. The exporter making out an invoice declaration shall keep for at least three years a copy of this invoice declaration as well as the documents referred to in Article 21(3).
3. The customs authorities of the exporting country issuing a movement certificate EUR.1 shall keep for at least three years the application form referred to in Article 17(2).
4. The customs authorities of the importing country shall keep for at least three years the movement certificates EUR.1 and the invoice declarations submitted to them.

ARTICLE 29

Discrepancies and formal errors

1. The discovery of slight discrepancies between the statements made in the proof of origin and those made in the documents submitted to the customs office for the purpose of carrying out the formalities for importing the products shall not *ipso facto* render the proof of origin null and void if it is duly established that this document does correspond to the products submitted.
2. Obvious formal errors such as typing errors on a proof of origin should not cause this document to be rejected if these errors are not such as to create doubts concerning the correctness of the statements made in this document.

ARTICLE 30

Amounts expressed in euro

1. For the application of the provisions of Article 21(1)(b) and Article 26(3) in cases where products are invoiced in a currency other than the euro, amounts in the national currencies of the Member States of the Community and of Albania equivalent to the amounts expressed in euro shall be fixed annually by each of the countries concerned.
2. A consignment shall benefit from the provisions of Article 21(1)(b) or Article 26(3) by reference to the currency in which the invoice is drawn up, according to the amount fixed by the country concerned.
3. The amounts to be used in any given national currency shall be the equivalent in that currency of the amounts expressed in euro as at the first working day of October. The amounts shall be communicated to the Commission of the European Communities by 15 October and shall apply from 1 January the following year. The Commission of the European Communities shall notify all countries concerned of the relevant amounts.
4. A country may round up or down the amount resulting from the conversion into its national currency of an amount expressed in euro. The rounded-off amount may not differ from the amount resulting from the conversion by more than 5%. A country may retain unchanged its national currency equivalent of an amount expressed in euro if, at the time of the annual adjustment provided for in paragraph 3, the conversion of that amount, prior to any rounding-off, results in an increase of less than 15% in the national currency equivalent. The national currency equivalent may be retained unchanged if the conversion would result in a decrease in that equivalent value.

5. The amounts expressed in euro shall be reviewed by the Stabilisation and Association Committee at the request of the Community or of Albania. When carrying out this review, the Stabilisation and Association Committee shall consider the desirability of preserving the effects of the limits concerned in real terms. For this purpose, it may decide to modify the amounts expressed in euro.

TITLE VI

ARRANGEMENTS FOR ADMINISTRATIVE COOPERATION

ARTICLE 31

Mutual assistance

1. The customs authorities of the Member States of the Community and of Albania shall provide each other, through the Commission of the European Communities, with specimen impressions of stamps used in their customs offices for the issue of movement certificates EUR.1 and with the addresses of the customs authorities responsible for verifying those certificates and invoice declarations.
2. In order to ensure the proper application of this Protocol, the Community and Albania shall assist each other, through the competent customs administrations, in checking the authenticity of the movement certificates EUR.1 or the invoice declarations and the correctness of the information given in these documents.

ARTICLE 32

Verification of proofs of origin

1. Subsequent verifications of proofs of origin shall be carried out at random or whenever the customs authorities of the importing country have reasonable doubts as to the authenticity of such documents, the originating status of the products concerned or the fulfilment of the other requirements of this Protocol.
2. For the purposes of implementing the provisions of paragraph 1, the customs authorities of the importing country shall return the movement certificate EUR.1 and the invoice, if it has been submitted, the invoice declaration, or a copy of these documents, to the customs authorities of the exporting country giving, where appropriate, the reasons for the enquiry. Any documents and information obtained suggesting that the information given on the proof of origin is incorrect shall be forwarded in support of the request for verification.
3. The verification shall be carried out by the customs authorities of the exporting country. For this purpose, they shall have the right to call for any evidence and to carry out any inspection of the exporter's accounts or any other check considered appropriate.
4. If the customs authorities of the importing country decide to suspend the granting of preferential treatment to the products concerned while awaiting the results of the verification, release of the products shall be offered to the importer subject to any precautionary measures judged necessary.

5. The customs authorities requesting the verification shall be informed of the results of this verification as soon as possible. These results must indicate clearly whether the documents are authentic and whether the products concerned can be considered as products originating in the Community or Albania and fulfil the other requirements of this Protocol.
6. If in cases of reasonable doubt there is no reply within ten months of the date of the verification request or if the reply does not contain sufficient information to determine the authenticity of the document in question or the real origin of the products, the requesting customs authorities shall, except in exceptional circumstances, refuse entitlement to the preferences.

ARTICLE 33

Dispute settlement

Where disputes arise in relation to the verification procedures of Article 32 which cannot be settled between the customs authorities requesting a verification and the customs authorities responsible for carrying out this verification or where they raise a question as to the interpretation of this Protocol, they shall be submitted to the Stabilisation and Association Council.

In all cases the settlement of disputes between the importer and the customs authorities of the importing country shall be under the legislation of the said country.

ARTICLE 34

Penalties

Penalties shall be imposed on any person who draws up, or causes to be drawn up, a document which contains incorrect information for the purpose of obtaining a preferential treatment for products.

ARTICLE 35

Free zones

1. The Community and Albania shall take all necessary steps to ensure that products traded under cover of a proof of origin which in the course of transport use a free zone situated in their territory are not substituted by other goods and do not undergo handling other than normal operations designed to prevent their deterioration.
2. By means of an exemption to the provisions contained in paragraph 1, when products originating in the Community or in Albania are imported into a free zone under cover of a proof of origin and undergo treatment or processing, the authorities concerned shall issue a new movement certificate EUR.1 at the exporter's request if the treatment or processing undergone is in conformity with the provisions of this Protocol.

TITLE VII
CEUTA AND MELILLA

ARTICLE 36
Application of the Protocol

1. The term "Community" used in Article 2 does not cover Ceuta and Melilla.
2. Products originating in Albania, when imported into Ceuta or Melilla, shall enjoy in all respects the same customs regime as that which is applied to products originating in the customs territory of the Community under Protocol 2 of the Act of Accession of the Kingdom of Spain and the Portuguese Republic to the European Communities. Albania shall grant to imports of products covered by the Agreement and originating in Ceuta and Melilla the same customs regime as that which is granted to products imported from and originating in the Community.
3. For the purpose of the application of paragraph 2 concerning products originating in Ceuta and Melilla, this Protocol shall apply *mutatis mutandis* subject to the special conditions set out in Article 37.

ARTICLE 37
Special conditions

1. Providing they have been transported directly in accordance with the provisions of Article 13, the following shall be considered as:

(1) products originating in Ceuta and Melilla:

(a) products wholly obtained in Ceuta and Melilla;

(b) products obtained in Ceuta and Melilla in the manufacture of which products other than those referred to in (a) are used, provided that:

(i) the said products have undergone sufficient working or processing within the meaning of Article 6; or

(ii) that those products are originating in Albania or in the Community, provided that they have been submitted to working or processing which goes beyond the operations referred to in Article 7.

(2) products originating in Albania:

(a) products wholly obtained in Albania;

(b) products obtained in Albania in the manufacture of which products other than those referred to in (a) are used, provided that:

(i) the said products have undergone sufficient working or processing within the meaning of Article 6; or

(ii) that those products are originating in Ceuta and Melilla or in the Community, provided that they have been submitted to working or processing which goes beyond the operations referred to in Article 7.

2. Ceuta and Melilla shall be considered as a single territory.

3. The exporter or his authorised representative shall enter "Albania" and "Ceuta and Melilla" in Box 2 of movement certificates EUR.1 or on invoice declarations. In addition, in the case of products originating in Ceuta and Melilla, this shall be indicated in Box 4 of movement certificates EUR.1 or on invoice declarations.

4. The Spanish customs authorities shall be responsible for the application of this Protocol in Ceuta and Melilla.

TITLE VIII FINAL PROVISIONS

ARTICLE 38 Amendments to the Protocol

The Stabilisation and Association Council may decide to amend the provisions of this Protocol.

INTRODUCTORY NOTES TO THE LIST IN ANNEX II

Note 1:

The list sets out the conditions required for all products to be considered as sufficiently worked or processed within the meaning of Article 6 of the Protocol.

Note 2:

- 2.1. The first two columns in the list describe the product obtained. The first column gives the heading number or chapter number used in the Harmonised System and the second column gives the description of goods used in that system for that heading or chapter. For each entry in the first two columns, a rule is specified in column 3 or 4. Where, in some cases, the entry in the first column is preceded by an "ex", this signifies that the rules in column 3 or 4 apply only to the part of that heading as described in column 2.
- 2.2. Where several heading numbers are grouped together in column 1 or a chapter number is given and the description of products in column 2 is therefore given in general terms, the adjacent rules in column 3 or 4 apply to all products which, under the Harmonised System, are classified in headings of the chapter or in any of the headings grouped together in column 1.
- 2.3. Where there are different rules in the list applying to different products within a heading, each indent contains the description of that part of the heading covered by the adjacent rules in column 3 or 4.

- 2.4. Where, for an entry in the first two columns, a rule is specified in both columns 3 and 4, the exporter may opt, as an alternative, to apply either the rule set out in column 3 or that set out in column 4. If no origin rule is given in column 4, the rule set out in column 3 is to be applied.

Note 3:

- 3.1. The provisions of Article 6 of the Protocol, concerning products having acquired originating status which are used in the manufacture of other products, shall apply, regardless of whether this status has been acquired inside the factory where these products are used or in another factory in the Community or in Albania.

Example:

An engine of heading 8407, for which the rule states that the value of the non-originating materials which may be incorporated may not exceed 40% of the ex-works price, is made from "other alloy steel roughly shaped by forging" of heading ex 7224.

If this forging has been forged in the Community from a non-originating ingot, it has already acquired originating status by virtue of the rule for heading ex 7224 in the list. The forging can then count as originating in the value-calculation for the engine, regardless of whether it was produced in the same factory or in another factory in the Community. The value of the non-originating ingot is thus not taken into account when adding up the value of the non-originating materials used.

- 3.2. The rule in the list represents the minimum amount of working or processing required, and the carrying-out of more working or processing also confers originating status; conversely, the carrying-out of less working or processing cannot confer originating status. Thus, if a rule provides that non-originating material, at a certain level of manufacture, may be used, the use of such material at an earlier stage of manufacture is allowed, and the use of such material at a later stage is not.
- 3.3. Without prejudice to Note 3.2, where a rule uses the expression "Manufacture from materials of any heading", then materials of any heading(s) (even materials of the same description and heading as the product) may be used, subject, however, to any specific limitations which may also be contained in the rule.

However, the expression "Manufacture from materials of any heading, including other materials of heading ..." or "Manufacture from materials of any heading, including other materials of the same heading as the product" means that materials of any heading(s) may be used, except those of the same description as the product as given in column 2 of the list.

- 3.4. When a rule in the list specifies that a product may be manufactured from more than one material, this means that one or more materials may be used. It does not require that all be used.

Example:

The rule for fabrics of headings 5208 to 5212 provides that natural fibres may be used and that chemical materials, among other materials, may also be used. This does not mean that both have to be used; it is possible to use one or the other, or both.

- 3.5. Where a rule in the list specifies that a product must be manufactured from a particular material, the condition obviously does not prevent the use of other materials which, because of their inherent nature, cannot satisfy the rule. (See also Note 6.2 below in relation to textiles).

Example:

The rule for prepared foods of heading 1904, which specifically excludes the use of cereals and their derivatives, does not prevent the use of mineral salts, chemicals and other additives which are not products from cereals.

However, this does not apply to products which, although they cannot be manufactured from the particular materials specified in the list, can be produced from a material of the same nature at an earlier stage of manufacture.

Example:

In the case of an article of apparel of ex Chapter 62 made from non-woven materials, if the use of only non-originating yarn is allowed for this class of article, it is not possible to start from non-woven cloth – even if non-woven cloths cannot normally be made from yarn. In such cases, the starting material would normally be at the stage before yarn – that is, the fibre stage.

- 3.6. Where, in a rule in the list, two percentages are given for the maximum value of non-originating materials that can be used, then these percentages may not be added together. In other words, the maximum value of all the non-originating materials used may never exceed the higher of the percentages given. Furthermore, the individual percentages must not be exceeded, in relation to the particular materials to which they apply.

Note 4:

- 4.1. The term "natural fibres" is used in the list to refer to fibres other than artificial or synthetic fibres. It is restricted to the stages before spinning takes place, including waste, and, unless otherwise specified, includes fibres which have been carded, combed or otherwise processed, but not spun.
- 4.2. The term "natural fibres" includes horsehair of heading 0503, silk of headings 5002 and 5003, as well as wool-fibres and fine or coarse animal hair of headings 5101 to 5105, cotton fibres of headings 5201 to 5203, and other vegetable fibres of headings 5301 to 5305.
- 4.3. The terms "textile pulp", "chemical materials" and "paper-making materials" are used in the list to describe the materials, not classified in Chapters 50 to 63, which can be used to manufacture artificial, synthetic or paper fibres or yarns.
- 4.4. The term "man-made staple fibres" is used in the list to refer to synthetic or artificial filament tow, staple fibres or waste, of headings 5501 to 5507.

Note 5:

- 5.1. Where, for a given product in the list, reference is made to this Note, the conditions set out in column 3 shall not be applied to any basic textile materials used in the manufacture of this product and which, taken together, represent 10% or less of the total weight of all the basic textile materials used. (See also Notes 5.3 and 5.4 below.)
- 5.2. However, the tolerance mentioned in Note 5.1 may be applied only to mixed products which have been made from two or more basic textile materials.

The following are the basic textile materials:

- silk,
- wool,
- coarse animal hair,
- fine animal hair,
- horsehair,
- cotton,
- paper-making materials and paper,
- flax,
- true hemp,
- jute and other textile bast fibres,
- sisal and other textile fibres of the genus *Agave*,
- coconut, abaca, ramie and other vegetable textile fibres,
- synthetic man-made filaments,
- artificial man-made filaments,
- current-conducting filaments,
- synthetic man-made staple fibres of polypropylene,
- synthetic man-made staple fibres of polyester,

- synthetic man-made staple fibres of polyamide,
- synthetic man-made staple fibres of polyacrylonitrile,
- synthetic man-made staple fibres of polyimide,
- synthetic man-made staple fibres of polytetrafluoroethylene,
- synthetic man-made staple fibres of polyphenylene sulphide,
- synthetic man-made staple fibres of polyvinyl chloride,
- other synthetic man-made staple fibres,
- artificial man-made staple fibres of viscose,
- other artificial man-made staple fibres,
- yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped,
- yarn made of polyurethane segmented with flexible segments of polyester, whether or not gimped,
- products of heading 5605 (metallised yarn) incorporating strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film,
- other products of heading 5605.

Example:

A yarn, of heading 5205, made from cotton fibres of heading 5203 and synthetic staple fibres of heading 5506, is a mixed yarn. Therefore, non-originating synthetic staple fibres which do not satisfy the origin rules (which require manufacture from chemical materials or textile pulp) may be used, provided that their total weight does not exceed 10% of the weight of the yarn.

Example:

A woollen fabric, of heading 5112, made from woollen yarn of heading 5107 and synthetic yarn of staple fibres of heading 5509, is a mixed fabric. Therefore, synthetic yarn which does not satisfy the origin rules (which require manufacture from chemical materials or textile pulp), or woollen yarn which does not satisfy the origin rules (which require manufacture from natural fibres, not carded or combed or otherwise prepared for spinning), or a combination of the two, may be used, provided that their total weight does not exceed 10% of the weight of the fabric.

Example:

Tufted textile fabric, of heading 5802, made from cotton yarn of heading 5205 and cotton fabric of heading 5210, is a only mixed product if the cotton fabric is itself a mixed fabric made from yarns classified in two separate headings, or if the cotton yarns used are themselves mixtures.

Example:

If the tufted textile fabric concerned had been made from cotton yarn of heading 5205 and synthetic fabric of heading 5407, then, obviously, the yarns used are two separate basic textile materials and the tufted textile fabric is, accordingly, a mixed product.

- 5.3. In the case of products incorporating "yarn made of polyurethane segmented with flexible segments of polyether, whether or not gimped", this tolerance is 20% in respect of this yarn.

- 5.4. In the case of products incorporating "strip consisting of a core of aluminium foil or of a core of plastic film whether or not coated with aluminium powder, of a width not exceeding 5 mm, sandwiched by means of a transparent or coloured adhesive between two layers of plastic film", this tolerance is 30% in respect of this strip.

Note 6:

- 6.1. Where, in the list, reference is made to this Note, textile materials (with the exception of linings and interlinings), which do not satisfy the rule set out in the list in column 3 for the made-up product concerned, may be used, provided that they are classified in a heading other than that of the product and that their value does not exceed 8% of the ex-works price of the product.
- 6.2. Without prejudice to Note 6.3, materials, which are not classified within Chapters 50 to 63, may be used freely in the manufacture of textile products, whether or not they contain textiles.

Example:

If a rule in the list provides that, for a particular textile item (such as trousers), yarn must be used, this does not prevent the use of metal items, such as buttons, because buttons are not classified within Chapters 50 to 63. For the same reason, it does not prevent the use of slide-fasteners, even though slide-fasteners normally contain textiles.

- 6.3. Where a percentage-rule applies, the value of materials which are not classified within Chapters 50 to 63 must be taken into account when calculating the value of the non-originating materials incorporated.

Note 7:

7.1. For the purposes of headings ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, the "specific processes" are the following:

- (a) vacuum-distillation;
- (b) redistillation by a very thorough fractionation process;
- (c) cracking;
- (d) reforming;
- (e) extraction by means of selective solvents;
- (f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally-active earth, activated earth, activated charcoal or bauxite;
- (g) polymerisation;
- (h) alkylation;
- (i) isomerisation.

7.2. For the purposes of headings 2710, 2711 and 2712, the "specific processes" are the following:

- (a) vacuum-distillation;
- (b) redistillation by a very thorough fractionation-process;
- (c) cracking;
- (d) reforming;
- (e) extraction by means of selective solvents;
- (f) the process comprising all of the following operations: processing with concentrated sulphuric acid, oleum or sulphuric anhydride; neutralisation with alkaline agents; decolourisation and purification with naturally-active earth, activated earth, activated charcoal or bauxite;
- (g) polymerisation;
- (h) alkylation;
- (ij) isomerisation;
- (k) in respect of heavy oils of heading ex 2710 only, desulphurisation with hydrogen, resulting in a reduction of at least 85% of the sulphur-content of the products processed (ASTM D 1266-59 T method);

- (l) in respect of products of heading 2710 only, deparaffining by a process other than filtering;
- (m) in respect of heavy oils of heading ex 2710 only, treatment with hydrogen, at a pressure of more than 20 bar and a temperature of more than 250 C, with the use of a catalyst, other than to effect desulphurisation, when the hydrogen constitutes an active element in a chemical reaction. The further treatment, with hydrogen, of lubricating oils of heading ex 2710 (e.g. hydrofinishing or decolourisation), in order, more especially, to improve colour or stability shall not, however, be deemed to be a specific process;
- (n) in respect of fuel oils of heading ex 2710 only, atmospheric distillation, on condition that less than 30% of these products distils, by volume, including losses, at 300°C, by the ASTM D 86 method;
- (o) in respect of heavy oils other than gas oils and fuel oils of heading ex 2710 only, treatment by means of a high-frequency electrical brush-discharge;
- (p) in respect of crude products (other than petroleum jelly, ozokerite, lignite wax or peat wax, paraffin wax containing by weight less than 0,75% of oil) of heading ex 2712 only, de-oiling by fractional crystallisation.

- 7.3. For the purposes of headings ex 2707, 2713 to 2715, ex 2901, ex 2902 and ex 3403, simple operations, such as cleaning, decanting, desalting, water-separation, filtering, colouring, marking, obtaining a sulphur-content as a result of mixing products with different sulphur-contents, or any combination of these operations or like operations, do not confer origin.

PROTOCOL 5
ON LAND TRANSPORT

ARTICLE 1

Aim

The aim of this Protocol is to promote cooperation between the Parties on land transport, and in particular transit traffic, and to ensure for this purpose that transport between and through the territories of the Parties is developed in a coordinated manner by means of the complete and interdependent application of all the provisions of this Protocol.

ARTICLE 2

Scope

1. Cooperation shall cover land transport, and in particular road, rail and combined transport, and shall include the relevant infrastructure.
2. In this connection, the scope of this Protocol shall cover in particular:
 - transport infrastructure in the territory of one or other Party to the extent necessary to achieve the objective of this Protocol,
 - market access, on a reciprocal basis, in the field of road transport,
 - essential legal and administrative supporting measures including commercial, taxation, social and technical measures,
 - cooperation in developing a transport system which meets environmental needs, and
 - a regular exchange of information on the development of the transport policies of the Parties, with particular regard to transport infrastructure.

ARTICLE 3

Definitions

For the purposes of this Protocol, the following definitions shall apply:

- (a) "Community transit traffic" means the carriage, by a carrier established in the Community, of goods in transit through Albanian territory en route to or from a Member State of the Community;
- (b) "Albanian transit traffic" means the carriage, by a carrier established in Albania, of goods in transit from Albania through Community territory and destined for a third country or of goods from a third country destined for Albania;
- (c) "combined transport" means the transport of goods where the lorry, trailer, semi-trailer, with or without tractor unit, swap body or container of 20 feet or more, uses the road on the initial or final leg of the journey and on the other leg, rail or inland waterway or maritime services where this section exceeds 100 kilometres as the crow flies and makes the initial or final road transport leg of the journey:
 - between the point where the goods are loaded and the nearest suitable rail loading station for the initial leg, and between the nearest suitable rail unloading station and the point where the goods are unloaded for the final leg, or
 - within a radius not exceeding 150 km as the crow flies from the inland waterway port or seaport of loading or unloading.

TITLE I

INFRASTRUCTURE

ARTICLE 4

General Provision

The Parties hereby agree to adopt mutually coordinated measures to develop a multimodal transport infrastructure network as a vital means of solving the problems affecting the carriage of goods through Albania in particular on the Pan-European Corridor VIII, the North-South axis and the connections to the Adriatic/Ionian Pan-European Transport Area.

ARTICLE 5

Planning

The development of a multimodal regional transport network on the Albanian territory which serves the needs of Albania and the South-Eastern European region covering the main road and rail routes, inland waterways, inland ports, ports, airports and other relevant modes of the network is of particular interest to the Community and Albania. This network was defined in a Memorandum of Understanding for developing a core transport infrastructure network for South East Europe which was signed by ministers from the region, and the European Commission, in June 2004. The development of the network and the selection of priorities will be carried out by a Steering Committee comprised of representatives of each of the signatories.

ARTICLE 6

Financial aspects

1. The Community may contribute financially, under Article 112 of the Agreement, to the necessary infrastructure work referred to in Article 5 of this Protocol. This financial contribution may take the form of credit from the European Investment Bank and any other form of financing which can provide further additional resources.
2. In order to speed up the work the Commission shall endeavour, as far as possible, to encourage the use of additional resources such as investment by certain Member States on a bilateral basis or from public or private funds.

TITLE II

RAIL AND COMBINED TRANSPORT

ARTICLE 7

General provision

The Parties shall adopt the mutually coordinated measures necessary for the development and promotion of rail and combined transport as a mean of ensuring that in the future a major proportion of their bilateral and transit transport through Albania is performed under more environmentally-friendly conditions.

ARTICLE 8

Particular aspects relating to infrastructure

As part of the modernisation of the Albanian railways, the necessary steps shall be taken to adapt the system for combined transport, with particular regard to the development or building of terminals, tunnel gauges and capacity, which require substantial investment.

ARTICLE 9

Supporting measures

The Parties shall take all the steps necessary to encourage the development of combined transport.

The purpose of such measures shall be:

- to encourage the use of combined transport by users and consignors,
- to make combined transport competitive with road transport, in particular through the financial support of the Community or Albania in the context of their respective legislation,
- to encourage the use of combined transport over long distances and to promote, in particular the use of swap bodies, containers and unaccompanied transport in general,
- to improve the speed and reliability of combined transport and in particular:
- to increase the frequency of convoys in accordance with the needs of consignors and users,

- to reduce the waiting time at terminals and increase their productivity,
- to remove in an appropriate manner, all obstacles from the approach routes so as to improve access to combined transport,
- to harmonise, where necessary, the weights, dimensions and technical characteristics of specialised equipment, in particular so as to ensure the necessary compatibility of gauges, and to take coordinated action to order and to put into service such equipment as is required by the level of traffic, and
- in general, to take any other appropriate action.

ARTICLE 10

The role of the railways

In connection with the respective powers of the States and the railways, the Parties shall, in respect of both passenger and goods transport, recommend that their railways:

- step up cooperation, whether bilateral, multilateral or within international railway organisations, in all fields, with particular regard to the improvement of the quality and the safety of transport services,

- try to establish in common a system of organising the railways so as to encourage consignors to send freight by rail rather than road, in particular for transit purposes, on a basis of fair competition and while leaving the user freedom of choice in this matter,
- prepare the participation of Albania in the implementation and future evolution of the Community *acquis* on the development of the railways.

TITLE III

ROAD TRANSPORT

ARTICLE 11

General Provisions

1. With regard to mutual access to transport markets, the Parties agree, initially and without prejudice to paragraph 2, to maintain the regime resulting from bilateral Agreements or other existing international bilateral instruments concluded between each Member State of the Community and Albania or, where there are no such Agreements or instruments, arising from the *de facto* situation in 1991.

However, whilst awaiting the conclusion of an Agreement between the Community and Albania on access to the road transport market, as provided for in Article 12, and on road taxation, as provided for in Article 13(2), Albania shall cooperate with the Member States to amend these bilateral Agreements or instruments in order to adapt them to this Protocol.

2. The Parties hereby agree to grant unrestricted access to Community transit traffic through Albania and to Albanian transit traffic through the Community with effect from the date of entry into force of the Agreement.

3. If, as a result of the rights granted under paragraph 2, transit traffic by Community hauliers increases to such a degree as to cause or threaten to cause serious harm to road infrastructure and/or traffic fluidity on the axes mentioned in Article 5, and under the same circumstances problems arise on Community territory close to the Albanian borders, the matter shall be submitted to the Stabilisation and Association Council in accordance with Article 118 of the Agreement. The Parties may propose such exceptional, temporary non-discriminatory measures as are necessary to limit or mitigate such harm.

4. If the European Community establishes rules aiming to reduce pollution caused by heavy goods vehicles registered in the European Union and to improve traffic safety, a similar regime shall apply to heavy goods vehicles registered in Albania that wish to circulate through the Community territory. The Stabilisation and Association Council shall decide on the necessary modalities.

5. The Parties shall refrain from taking any unilateral action that might lead to discrimination between Community and Albanian carriers or vehicles. Each Party shall take all steps necessary to facilitate road transport to or through the territory of the other Party.

ARTICLE 12

Access to the market

The Parties shall, as a matter of priority, undertake to work together to seek, each of them subject to their internal rules:

- courses of action likely to favour the development of a transport system which meets the needs of the Parties, and which is compatible, on the one hand, with the completion of the internal Community market and the implementation of the common transport policy and, on the other hand, with Albania's economic and transport policy,
- a definitive system for regulating future road transport market access between the Parties on the basis of reciprocity.

ARTICLE 13

Taxation, tolls and other charges

1. The Parties accept that the taxation of road vehicles, tolls and other charges on either side must be non-discriminatory.
2. The Parties shall enter into negotiations with a view to reaching an Agreement on road taxation, as soon as possible, on the basis of the rules adopted by the Community on this matter. The purpose of such an Agreement shall be, in particular, to ensure the free flow of trans-frontier traffic, to progressively eliminate differences between the road taxation systems applied by the Parties and to eliminate distortions of competition arising from such differences.
3. Pending the conclusion of the negotiations mentioned in paragraph 2, the Parties shall eliminate discrimination between hauliers of the Community or Albania when levying taxes and charges on the circulation and/or possession of heavy goods vehicles as well as taxes or charges levied on transport operations in the territory of the Parties. Albania undertakes to notify the Commission of the European Communities, if so requested, of the amount of taxes, tolls and charges which it applies, as well as the method of calculating them.
4. Until the conclusion of an Agreement referred to in paragraph 2 and in Article 12 any change proposed after the date of entry into force of the Stabilisation and Association to fiscal charges, tolls or other charges, including the systems for their collection which may be applied to Community traffic in transit through Albania shall be subject to a prior consultation procedure.

ARTICLE 14

Weights and dimensions

1. Albania shall accept that road vehicles complying with Community standards on weights and dimensions may circulate freely and without hindrance in this respect on the routes covered by Article 5. During six months after the date of entry into force of the Agreement, road vehicles which do not comply with existing Albanian standards may be subject to a special non-discriminatory charge which reflects the damage caused by additional axle weight.
2. Albania shall endeavour to harmonise its existing regulations and standards for road construction with the legislation prevailing in the Community by the end of the fifth year after the date of entry into force of the Agreement and shall make major efforts for improvement of the existing routes covered by Article 5 to those new regulations and standards within the proposed time, in accordance with its financial possibilities.

ARTICLE 15

Environment

1. In order to protect the environment, the Parties shall endeavour to introduce standards on gaseous and particulate emissions and noise levels for heavy goods vehicles, which ensure a high level of protection.

2. In order to provide the industry with clear information and to encourage coordinated research, programming and production, exceptional national standards in this field shall be avoided.

Vehicles which comply with standards laid down by international agreements also relating to environment may operate without further restrictions in the territory of the Parties.

3. For the purpose of introducing new standards, the Parties shall work together to achieve the abovementioned objectives.

ARTICLE 16

Social aspects

1. Albania shall harmonise its legislation on the training of road haulage personnel, particularly with respect to the carriage of dangerous goods, to the Community standards.

2. Albania, as a Contracting Party of the European Agreement on international road transport crews (ERTA), and the Community shall coordinate to the maximum extent possible their policies concerning driving time, interruptions and rest periods for drivers and crew composition, in respect of the future development of the social legislation in this area.

3. The Parties shall cooperate with regard to implementation and enforcement of the social legislation in the field of road transport.

4. The Parties shall ensure the equivalence of their respective laws on the admission to the occupation of road haulage operator, with a view to their mutual recognition.

ARTICLE 17

Provisions relating to traffic

1. The Parties shall pool their experience and endeavour to harmonise their legislation so as to improve the flow of traffic during peak periods (weekends, public holidays, the tourist season).
2. In general, the Parties shall encourage the introduction, development and coordination of a road traffic information system.
3. They shall endeavour to harmonise their legislation on the carriage of perishable goods, live animals and dangerous substances.
4. The Parties shall also endeavour to harmonise the technical assistance to be provided to drivers, the dissemination of essential information on traffic and other matters of concern to tourists, and emergency services including ambulance services.

ARTICLE 18

Road Safety

1. Albania shall harmonise its legislation on road safety, particularly with regard to the transport of dangerous goods, to that of the Community by the end of the fifth year after the date of entry into force of the Agreement.
2. Albania, as a Contracting Party to the European Agreement concerning the International Carriage of Dangerous Goods by Road (ADR), and the Community shall coordinate to the maximum extent possible their policies concerning the carriage of dangerous goods.
3. The Parties shall cooperate with regard to implementation and enforcement of road safety legislation, particularly on driving licences and measures to reduce road accidents.

TITLE IV

SIMPLIFICATION OF FORMALITIES

ARTICLE 19

Simplification of formalities

1. The Parties agree to simplify the flow of goods by rail and road, whether bilateral or in transit.

2. The Parties agree to begin negotiations with a view to concluding an Agreement on the facilitation of controls and formalities relating to the carriage of goods.
3. The Parties agree, to the extent necessary, to take joint action on, and to encourage, the adoption of further simplification measures.

TITLE V

FINAL PROVISIONS

ARTICLE 20

Widening of the scope

If one of the Parties concludes, on the basis of experience in the application of this Protocol, that other measures which do not fall within the scope of the Protocol are in the interest of a coordinated European transport policy and, in particular, may help to solve the problem of transit traffic, it shall make suggestions in this respect to the other Party.

ARTICLE 21
Implementation

1. Cooperation between the Parties shall be carried out within the framework of a special Sub-committee to be created in accordance with Article 121 of the Agreement.
2. This Sub-committee in particular:
 - (a) shall draw up plans for cooperation on rail and combined transport, transport research and the environment;
 - (b) shall analyse the application of the decisions contained in this Protocol and shall recommend to the Stabilisation and Association Committee appropriate solutions for any possible problems which might arise;

2. Assistance in customs matters, as provided for in this Protocol, shall apply to any administrative authority of the Parties which is competent for the application of this Protocol. It shall not prejudice the rules governing mutual assistance in criminal matters. Nor shall it cover information obtained under powers exercised at the request of a judicial authority, except where communication of such information is authorised by that authority.
3. Assistance to recover duties, taxes or fines is not covered by this Protocol.

ARTICLE 3

Assistance on request

1. At the request of the applicant authority, the requested authority shall provide it with all relevant information which may enable it to ensure that customs legislation is correctly applied, including information regarding activities noted or planned which are or could be operations in breach of customs legislation.

2. At the request of the applicant authority, the requested authority shall inform it:
 - (a) whether goods exported from the territory of one of the Parties have been properly imported into the territory of the other Party, specifying, where appropriate, the customs procedure applied to the goods;
 - (b) whether goods imported into the territory of one of the Parties have been properly exported from the territory of the other Party, specifying, where appropriate, the customs procedure applied to the goods.
3. At the request of the applicant authority, the requested authority shall, within the framework of its legal or regulatory provisions, take the necessary steps to ensure special surveillance of:
 - (a) natural or legal persons in respect of whom there are reasonable grounds for believing that they are or have been involved in operations in breach of customs legislation;

- (d) means of transport that are or may be used in such a way that there are reasonable grounds for believing that they are intended to be used in operations in breach of customs legislation.

ARTICLE 4

Spontaneous assistance

The Parties shall assist each other, at their own initiative and in accordance with their legal or regulatory provisions, if they consider that to be necessary for the correct application of customs legislation, particularly by providing information obtained pertaining to:

- activities which are or appear to be operations in breach of customs legislation and which may be of interest to the other Party;
- new means or methods employed in carrying out operations in breach of customs legislation;
- goods known to be subject to operations in breach of customs legislation;
- natural or legal persons in respect of whom there are reasonable grounds for believing that they are or have been involved in operations in breach of customs legislation; and
- means of transport in respect of which there are reasonable grounds for believing that they have been, are, or may be used in operations in breach of customs legislation.

ARTICLE 5

Delivery, notification

At the request of the applicant authority, the requested authority shall, in accordance with legal or regulatory provisions applicable to the latter, take all necessary measures in order:

- to deliver any documents, or
- to notify any decisions,

emanating from the applicant authority and falling within the scope of this Protocol, to an addressee residing or established in the territory of the requested authority.

Requests for delivery of documents or notification of decisions shall be made in writing in an official language of the requested authority or in a language acceptable to that authority.

ARTICLE 6

Form and substance of requests for assistance

1. Requests pursuant to this Protocol shall be made in writing. They shall be accompanied by the documents necessary to enable compliance with the request. When required because of the urgency of the situation, oral requests may be accepted, but must be confirmed in writing immediately.

2. Requests pursuant to paragraph 1 shall include the following information:

- (a) the applicant authority;
- (b) the measure requested;
- (c) the object of and the reason for the request;
- (d) the legal or regulatory provisions and other legal elements involved;
- (e) indications as exact and comprehensive as possible on the natural or legal persons who are the target of the investigations; and
- (f) a summary of the relevant facts and of the enquiries already carried out.

3. Requests shall be submitted in an official language of the requested authority or in a language acceptable to that authority. This requirement shall not apply to any documents that accompany the request under paragraph 1.

4. If a request does not meet the formal requirements set out above, its correction or completion may be requested; in the meantime precautionary measures may be ordered.

ARTICLE 7

Execution of requests

1. In order to comply with a request for assistance, the requested authority shall proceed, within the limits of its competence and available resources, as though it were acting on its own account or at the request of other authorities of that same Party, by supplying information already possessed, by carrying out appropriate enquiries or by arranging for them to be carried out. This provision shall also apply to any other authority to which the request has been addressed by the requested authority when the latter cannot act on its own.
2. Requests for assistance shall be executed in accordance with the legal or regulatory provisions of the requested Party.
3. Duly authorised officials of a Party may, with the agreement of the other Party involved and subject to the conditions laid down by the latter, be present to obtain in the offices of the requested authority or any other concerned authority in accordance with paragraph 1, information relating to activities that are or may be operations in breach of customs legislation which the applicant authority needs for the purposes of this Protocol.
4. Duly authorised officials of a Party involved may, with the agreement of the other Party involved and subject to the conditions laid down by the latter, be present at enquiries carried out in the latter's territory.

ARTICLE 8

Form in which information is to be communicated

1. The requested authority shall communicate results of enquiries to the applicant authority in writing together with relevant documents, certified copies or other items.
2. This information may be in computerised form.
3. Original documents shall be transmitted only upon request in cases where certified copies would be insufficient. These originals shall be returned at the earliest opportunity.

ARTICLE 9

Exceptions to the obligation to provide assistance

1. Assistance may be refused or may be subject to the satisfaction of certain conditions or requirements, in cases where a Party is of the opinion that assistance under this Protocol would:
 - (a) be likely to prejudice the sovereignty of Albania or that of a Member State which has been requested to provide assistance under this Protocol; or
 - (b) be likely to prejudice public policy, security or other essential interests, in particular in the cases referred to under Article 10(2); or
 - (c) violate an industrial, commercial or professional secret.

2. Assistance may be postponed by the requested authority on the ground that it will interfere with an ongoing investigation, prosecution or proceeding. In such a case, the requested authority shall consult with the applicant authority to determine if assistance can be given subject to such terms or conditions as the requested authority may require.
3. Where the applicant authority seeks assistance which it would itself be unable to provide if so requested, it shall draw attention to that fact in its request. It shall then be for the requested authority to decide how to respond to such a request.
4. For the cases referred to in paragraphs 1 and 2, the decision of the requested authority and the reasons therefor must be communicated to the applicant authority without delay.

ARTICLE 10

Information exchange and confidentiality

1. Any information communicated in whatsoever form pursuant to this Protocol shall be of a confidential or restricted nature, depending on the rules applicable in each of the Parties. It shall be covered by the obligation of official secrecy and shall enjoy the protection extended to similar information under the relevant laws of the Party that received it and the corresponding provisions applying to the Community authorities.

2. Personal data may be exchanged only where the Party which may receive them undertakes to protect such data in at least an equivalent way to the one applicable to that particular case in the Party that may supply them. To that end, Parties shall communicate to each other information on their applicable rules, including, where appropriate, legal provisions in force in the Member States of the Community.

3. The use, in judicial or administrative proceedings instituted in respect of operations in breach of customs legislation, of information obtained under this Protocol, is considered to be for the purposes of this Protocol. Therefore, the Parties may, in their records of evidence, reports and testimonies and in proceedings and charges brought before the courts, use as evidence information obtained and documents consulted in accordance with the provisions of this Protocol. The competent authority which supplied that information or gave access to those documents shall be notified of such use.

4. Information obtained shall be used solely for the purposes of this Protocol. Where one of the Parties wishes to use such information for other purposes, it shall obtain the prior written consent of the authority which provided the information. Such use shall then be subject to any restrictions laid down by that authority.

ARTICLE 11

Experts and witnesses

An official of a requested authority may be authorised to appear, within the limitations of the authorisation granted, as an expert or witness in judicial or administrative proceedings regarding the matters covered by this Protocol, and produce such objects, documents or certified copies thereof, as may be needed for the proceedings. The request for appearance must indicate specifically before which judicial or administrative authority the official will have to appear, on what matters and by virtue of what title or qualification the official will be questioned.

ARTICLE 12

Assistance expenses

The Parties shall waive all claims on each other for the reimbursement of expenses incurred pursuant to this Protocol, except, as appropriate, for expenses to experts and witnesses, and those to interpreters and translators who are not public service employees.

ARTICLE 13

Implementation

1. The implementation of this Protocol shall be entrusted on the one hand to the customs authorities of Albania and on the other hand to the competent services of the Commission of the European Communities and the customs authorities of the Member States as appropriate. They shall decide on all practical measures and arrangements necessary for its application, taking into consideration the rules in force in particular in the field of data protection. They may recommend to the competent bodies amendments which they consider should be made to this Protocol.
2. The Parties shall consult each other and subsequently keep each other informed of the detailed rules of implementation which are adopted in accordance with the provisions of this Protocol.

ARTICLE 14

Other agreements

1. Taking into account the respective competences of the Community and the Member States, the provisions of this Protocol shall:
 - not affect the obligations of the Parties under any other international Agreement or Convention;

- be deemed complementary to Agreements on mutual assistance which have been or may be concluded between individual Member States and Albania ; and shall
- not affect the Community provisions governing the communication between the competent services of the Commission of the European Communities and the customs authorities of the Member States of any information obtained under this Protocol which could be of interest to the Community.

2. Notwithstanding the provisions of paragraph 1, the provisions of this Protocol shall take precedence over the provisions of any bilateral Agreement on mutual assistance which has been or may be concluded between individual Member States and Albania insofar as the provisions of the latter are incompatible with those of this Protocol.

3. In respect of questions relating to the applicability of this Protocol, the Parties shall consult each other to resolve the matter in the framework of the Stabilisation and Association Committee set up under Article 120 of the Stabilisation and Association Agreement.

JOINT DECLARATIONS

Joint declaration on Articles 22 and 29 of the Agreement

The Parties declare that in the implementation of Articles 22 and 29 they will examine, in the Stabilisation and Association Council, the impact of any preferential Agreements negotiated by Albania with third countries (excluding the countries covered by the EU Stabilisation and Association Process and other adjacent countries which are not Member States of the European Union). This examination will allow for an adjustment of Albanian concessions to the Community if Albania were to offer significantly better concessions to these countries.

Joint Declaration concerning Article 41 of the Agreement

1. The Community declares its readiness to examine, within the Stabilisation and Association Council, the issue of Albania's participation in diagonal cumulation of rules of origin once economic and commercial as well as other relevant conditions for granting diagonal cumulation have been established.

2. With this in mind, Albania declares its readiness to establish free trade areas with, in particular, the other countries covered by the European Union's Stabilisation and Association Process.

Joint Declaration concerning Article 46 of the Agreement

It is understood that the notion "children" is defined in accordance with national legislation of the host country concerned.

Joint Declaration concerning Article 48 of the Agreement

It is understood that the notion "members of their family" is defined in accordance with national legislation of the host country concerned.

Joint Declaration concerning Article 61 of the Agreement

The Parties agree that the provisions laid down in Article 61 shall not be construed to prevent proportionate, non-discriminatory restrictions to the acquisition of real estate based on general interest, nor otherwise affect the Parties' rules governing the system of property ownership, except as specifically laid down therein.

It is understood that the acquisition of real estate by Albanian nationals is allowed in the Member States of the European Union in accordance with the applicable Community law, subject to specific exceptions permitted thereby and applied in conformity with the applicable national legislations of the Member States of the European Union.

Joint Declaration concerning Article 73 of the Agreement

The Parties agree that for the purposes of the Agreement, intellectual, industrial and commercial property includes in particular copyright, including the copyright in computer programs, and neighbouring rights, the rights relating to databases, patents, industrial designs, trademarks and service marks, topographies of integrated circuits and geographical indications, including appellations of origin, as well as protection against unfair competition as referred to in Article 10a of the Paris Convention for the Protection of Industrial Property and protection of undisclosed information on know-how.

Joint Declaration concerning Article 80 of the Agreement

The Parties are aware of the importance the people and the Government of Albania attach to the perspective of liberalisation of the visa regime. Meanwhile, progress is dependent on Albania implementing major reforms in areas such as the strengthening of the rule of law, combating organised crime, corruption and illegal migration, and strengthening her administrative capacity in border control and security of documents.

Joint Declaration concerning Article 126 of the Agreement

1. For the purposes of the interpretation and practical application of the Agreement, the Parties agree that the cases of special urgency referred to in Article 126 of the Agreement mean cases of material breach of the Agreement by one of the two Parties. A material breach of the Agreement consists in:

- repudiation of the Agreement not sanctioned by the general rules of international law and
- violation of the essential elements of the Agreement set out in Article 2.

2. The Parties agree that the "appropriate measures" referred to in Article 126 are measures taken in accordance with international law. If a Party takes a measure in a case of special urgency pursuant to Article 126, the other Party may avail itself of the dispute settlement procedure.

Joint declaration on legal migration, freedom of movement and rights of workers

The granting renewal or refusal of a residence permit is governed by the legislation of each Member State and the bilateral Agreements and Conventions in force between Albania and the Member State.

Joint Declaration concerning the Principality of Andorra concerning Protocol 4 of the Agreement

1. Products originating in the Principality of Andorra falling within Chapters 25 to 97 of the Harmonised System shall be accepted by Albania as originating in the Community within the meaning of the Agreement.
2. Protocol 4 shall apply *mutatis mutandis* for the purpose of defining the originating status of the abovementioned products.

Joint Declaration concerning the Republic of San Marino concerning Protocol 4 of the Agreement

1. Products originating in the Republic of San Marino shall be accepted by Albania as originating in the Community within the meaning of the Agreement.
2. Protocol 4 shall apply *mutatis mutandis* for the purpose of defining the originating status of the abovementioned products.

Joint Declaration concerning Protocol 5 of the Agreement

1. The Community and Albania take note that the levels of gaseous emissions and noise currently accepted in the Community for the purposes of heavy goods vehicle type approval from 1 January 2001¹ are as follows:

Limit values measured on the European Steady Cycle (ESC) and the European Load Response (ELR) test:
